Revive[®]

ORGANIC SOIL CONDITIONER

How to use as a general soil conditioner

- **For potting up, container planting and hanging baskets:** mix one part **Revive[®]** with two parts multi-purpose compost (this can be peat-based or peat-free)
- **For bed and border preparation and maintenance, and lawn construction:** fork a 1" (2.5cm) layer of **Revive[®]** into the top 4" (10cm) of soil. For lawn maintenance, apply in spring and autumn, scattering 3-5 hand-fulls evenly per square metre
- **For planting:** thoroughly water the plant, drain and remove from the pot. Dig a hole twice the size of the root ball and place plant in the centre. Backfill with a mixture of half soil and half **Revive[®]**. Firm in and water thoroughly
- **As a surface dressing mulch:** apply a 2" (5cm) layer of **Revive[®]** to the ground around shrubs flowering plants and trees, up to their stems
- **For vegetable and fruit growing:** apply top dressing of a 2-3" (5-7.5cm) layer of **Revive[®]** and gently fork into a depth of 5-6" (12.5-15cm) before seeding / planting. For established plants, top dress as required

For use in amateur horticulture
Store in a cool, dry place
Wash hands after use
Avoid ingestion or inhalation of dust

N.B. **Revive[®]** is not suitable for lime-hating plants like Rhododendrons, Azaleas and certain heathers.

Availability – **Revive[®]** is available in larger bulk quantities for landscapers and commercial growers. Please contact us for more information.
