

GREATER MANCHESTER COMBINED AUTHORITY

DATE: Friday, 17th December, 2021

TIME: 11.15 am

VENUE: Hollingworth Rooms A & B, Rochdale Council Offices,
No.1 Riverside, Rochdale, OL16 1XU

SECOND SUPPLEMENTAL AGENDA

6. Overview & Scrutiny Committees - December 2021 1 - 8

To note the minutes of the Overview and Scrutiny Committees held on:

- Economy, Business Growth & Skills – 10 December 2021

7. GM Transport Committee - 10 December 2021 9 - 16

To note the minutes of the meeting of the GM Transport Committee held on 10 December 2021.

For copies of papers and further information on this meeting please refer to the website www.greatermanchester-ca.gov.uk. Alternatively, contact the following
Governance & Scrutiny Officer: Governance and Scrutiny
✉ sylvia.welsh@greatermanchester-ca.gov.uk

This 2nd supplementary agenda was issued on 15.12.21 on behalf of Julie Connor,
Secretary to the
Greater Manchester Combined Authority, Broadhurst House, 56 Oxford Street,
Manchester M1 6EU

BOLTON	MANCHESTER	ROCHDALE	STOCKPORT	TRAFFORD
BURY	OLDHAM	SALFORD	TAMESIDE	WIGAN

Please note that this meeting will be livestreamed via www.greatermanchester-ca.gov.uk, please speak to a Governance Officer before the meeting should you not wish to consent to being included in this recording.

MINUTES OF THE GREATER MANCHESTER COMBINED AUTHORITY ECONOMY, BUSINESS GROWTH AND SKILLS OVERVIEW & SCRUTINY COMMITTEE, HELD ON FRIDAY 10 DECEMBER 2021

Present:

Bury:	Councillor Mary Whitby
Manchester:	Councillor Greg Stanton
Oldham:	Councillor George Hulme
	Councillor Sam Al-Hamdani (substitute)
Rochdale	Councillor Michael Holly (Chair)
	Councillor Raymond Dutton
Salford:	Councillor Jim King
Trafford	Councillors Barry Brotherton
Wigan:	Councillor Charles Rigby
	Councillor Debra Wailes (substitute)

In attendance:-

Andy Burnham, GM Mayor
Councillor Elise Wilson, GM Portfolio Lead for Economy and Business

Officers in attendance: -

GMCA	Joanne Heron, Statutory Scrutiny Officer, GMCA
GMCA	John Wrathmell, Director of Strategy, Research & Economy GMCA
GMCA	Gemma Marsh, Director Education, Skills & Work, GMCA
GMCA	Sharon Kelly, Education, Skills & Work, GMCA
GMCA	Kevin Lee, GM Mayor's Office
GMCA	Oliver Fenton, Governance and Scrutiny, GMCA
GMCA	Paul Harris, Governance and Scrutiny, GMCA

EO&S21/16 APOLOGIES FOR ABSENCE

Apologies for absence were received and noted from Councillors Michael Winstanley, Susan Haworth, Stephen Homer, Kate Butler and Becky Senior.

Apologies were also received and noted from, Simon Nokes, Executive Director, Policy and Strategy, GMCA and Karen Clarke, GMCA.

EO&S21/17 CHAIR'S ANNOUNCEMENTS AND URGENT BUSINESS

a. Face Coverings

The Chair reminded Members in respect of the new guidance on the wearing of face coverings.

b. Urgent Business

The Chair explained that he had allowed consideration of the Devolved Adult Education Budget item as urgent business in order for the Committee to as a supplement to the agenda.

This report will be considered at the upcoming GMCA meeting. I have allowed this item to be brought to this committee as urgent business to ensure that this Committee to is able to review and comment on the report prior to its consideration by the Combined Authority.

EO&S21/18 MEMBERSHIP OF THE GREATER MANCHESTER ECONOMY, BUSINESS GROWTH AND SKILLS OVERVIEW AND SCRUTINY COMMITTEE

That the appointment of Councillor Samuel Rimmer (Bolton, Con) as a member of the committee as a replacement for Andrea Finney (Bolton, Con) for the remainder of the 2021-2022 municipal year, be noted.

EO&S21/19 DECLARATIONS OF INTEREST

There were no declarations of interest made by any member in respect of any of the items on the agenda.

EO&S21/20 APPOINTMENT OF A VICE CHAIR FOR THE COMMITTEE

The Chair sought nominations for the appointment of Vice Chair to the Committee for the remainder of the 2021-2022 municipal year. In his absence, a nomination of Councillor Samuel Rimmer was moved and seconded.

There were no other nominations received.

RESOLVED/-

That the Committee be minded to approve the appointment of Councillor Samuel Rimmer as the Vice Chair to the Committee, subject to a discussion between the Chair and Councillor Rimmer.

EO&S21/21 MINUTES OF THE MEETING HELD ON 9th JULY 2021

The minutes of the previous meeting of the Committee, held on 9th July 2021 were submitted for approval as a correct record.

RESOLVED/-

That the minutes of the Economy, Business Growth and Skills Overview and Scrutiny Committee, held on held on 9th July 2021, be approved as a correct record.

EO&S21/22 GREATER MANCHESTER STRATEGY REFRESH

The GM Mayor introduced a presentation which provided the Committee with an update on the work to date and progress made in the refreshing of the Greater Manchester Strategy.

A draft version of the Greater Manchester Strategy – A good place for all, was appended to the report. It was noted that the draft strategy’s vision identifies Greater Manchester as a great place to grow up, get on and grow old; a great place to invest, do business, visit and study.

The report highlighted that the strapline of “Good Lives For All” had been included in response to and demonstrating the commitment to deliver on the Independent Inequalities Commission and the Build Back Fairer reports with Greater Manchester seeking to support all residents to achieve their vision of a good life.

Members noted that in developing the draft strategy, the draft text positions Greater Manchester to be a greener, fairer and more prosperous city-region, delivered through our unique and distinctive neighbourhoods, towns and cities, coming together in a vibrant successful Greater Manchester. The strategy sets out shared outcomes and commitments to be attained over the period of the strategy and are underpinned by collective ways of working.

The report explained that the draft strategy provides a ten-year vision and direction of travel for Greater Manchester, leading our recovery and renewal as the city-region comes out of the pandemic and learns to live with the ongoing implications. Members noted that the Strategy will be accompanied by a three-year Delivery Plan, which will initially capture those specific programmes of activity being delivered which support the shared outcomes and commitments in the Strategy, with a proposition for the further development of a more comprehensive delivery planning process.

It was noted that in respect of progress monitoring, a basket of measures, will be included, some of which will be monitored, some targeted, and some assurance measures around the adoption and embedding of our ways of working. The performance framework will draw on a range of data and intelligence sources, and will include community insight, as a mechanism to ensure our interventions are responsive to the lived experience of Greater Manchester’s residents. For the first time, the new performance framework will also include a few measures to be targeted at neighbourhood or community level and will introduce minimum standard approaches – below which would trigger a policy review and response.

The following points were made:-

- It was suggested that greener can be a catalyst for a fairer society where a more affordable public transport system can become a real alternative to the car. Better, more energy efficient housing will lower energy bills. Some GM districts are currently developing low carbon homes for social rent.
- Retrofitting properties will improve homes, reduce energy costs and create jobs.

- A target for zero carbon GM by 2038 is in place.
- It was noted that the first tranche of bus franchises have been advertised for expressions of interest. The process is also to be linked to the “Good Employment Charter”. A greener, more affordable public transport system will help to sustain and grow the economy in Greater Manchester.
- The upcoming implementation of the GM Clean Air Zone will enable for GM to be cleaner and greener. It was noted that the government has provided £120 million support to transport industries. Work was continuing to support the compliance for vans in order to balance up greener and fairer.
- A Member asked what powers members have to ensure new build properties are carbon free in the future. In response, it was noted that this matter was included as part of the planning framework and new planning policy within Places for Everyone, which will cover 9 of the 10 GM districts. A date of 2028 will seek for all properties to be zero carbon. This policy proposal will be submitted to the Secretary of State in early 2022.
- A Member highlighted the potential impact on HGV companies that may struggle financially to convert their vehicles to comply with the new Clean Air Zone regulations. The member enquired if there was any funding to support HGV operators to change or retrofit existing vehicles. In response, it was noted that the GM Growth Company has established a clean air service to provide support to companies. In addition, it was noted that new or more efficient vehicles will provide longer-term financial savings for companies. The establishment of a Clean Air Zone is a legal mandate from Government, and GM will try and support businesses through the transition. The Mayor asked the Member to provide information in respect of a local issue so that he could follow it up.
- A suggestion was made to explore how larger HGV operators may be able to support smaller businesses.
- A Member highlighted that the strategy needs to be flexible to be able to adapt to emerging green technology and infrastructure.
- The early adoption of greener skills on the journey to the zero carbon by 2038 will enhance opportunities for businesses.
- A Member noted that given the level of elite sporting and arts venues across Greater Manchester, reference to this should be referenced in the Strategy.
- A member commented that under climate change, water shortages will be more likely. The Member also highlighted concerns on the behaviour of utility companies and the impact infrastructure failure may have on liveability. In response, it was noted that the resilience of energy systems was important. Members noted that GM is the first region in the UK to map energy generation, storage and transmission. This work will provide a street by street picture of energy supply in districts and will provide a picture of where any gaps may be.
- The Mayor highlighted the Mayoral Development Corporation (MDC) programme in Stockport as an example of good liveability, where zero carbon transport is linked to zero carbon housing.
- It was noted that Electricity NW is supportive of the 2038 target. The Mayor also noted that the work of HyNet North West which will produce, store and distribute hydrogen across the region and could be a big step towards carbon neutrality.

- A Member suggested that modular nuclear reactors may be a way forward to address energy gaps in the City Region. The Mayor noted that this proposal was raised at the recent COP26 event, but that while a range of zero-carbon energy generation should be considered, he would need persuading on the siting and safety of this method of energy generation.
- A Member welcomed the levelling up plans within Greater Manchester to address the north and south differences. In response, Members noted the benefits of the Northern Gateway to generate economic growth in and around the area where it is located.
- A member asked how much of the retrofitting works will be undertaken, without the support from Government, in order to meet GM's targets. In response, it was noted that a retrofit taskforce has been established to look at retrofitting and a process is already underway for public buildings and also social housing. Net Zero North West have calculated that retrofitting could create 80,000 green jobs in the city region.
- A Member asked what the GM Pension Fund can do to support investment into low carbon areas.
- Councillor Wilson highlighted that the GMS is a strategy for the whole city region. The delivery of the strategy through neighbourhoods will drive GM ambitions. Local level measures and data can help make an impact on challenges and opportunities to make tangible differences.
- A Member asked if there was anything further that can be done to encourage residents to take up green energy plans. In response, the current challenges facing energy suppliers was noted, and the need to consider the issue of energy top ups from non-sustainable energy sources before wider promotion is undertaken.
- A partnership between the GMCA and Octopus Energy has been announced.
- An overview of the Stockport MDC was provided which explained the location, the development of an intergenerational community and transport links, which will include the potential for Metrolink and enhanced BeeNetwork active travel routes. Where home improvements are being undertaken, advice will be available to help home owners and businesses can include de-carbonising measures.
- The impact of the Integrated Rail Plan and changes to Northern Powerhouse Rail was highlighted and a Member asked if the GMS needed to be updated to include these changes. In response, the Mayor highlighted that Government's decision was the wrong solution and that a separate East-West railway line to serve Bradford, Leeds, Manchester and Liverpool was needed. The proposed overground HS2 arrangements in at Manchester Piccadilly were being challenged. Transport for the North had identified that the as the best and preferred solution for HS2 in that area would for an underground approach. Discussions were continuing with Government in relation to developing funding options through land value capture.

RESOLVED/-

That the draft Greater Manchester Strategy text and the proposed approach to the development of the supporting delivery plan, be noted.

EO&S21/23 GROWTH AND PROSPERITY THROUGH DECARBONISATION

Councillor Elise Williams, Lead Member for Economy and Business, introduced a presentation which informed the Committee on growth and prosperity through decarbonisation.

The presentation reiterated some of the discussion from the previous GMS item, in particular the priorities of the Strategy to :-

- a) create a carbon neutral Greater Manchester by 2038, with better air quality and natural environment;
- b) realise the opportunities from our world-class growth and innovation assets, driven by our Local Growth Plans / Industrial Strategy to open up opportunities in all parts of the city-region and
- c) to support the creation of better jobs and good employment that has a purpose beyond growing shareholder value, utilising the opportunity to positively impact on our communities.

The presentation set out the 2038 mission, outlined industry backed science-based targets and provided examples of action that had been undertaken, particularly in relation to GM Growth Company support to green sector companies, retrofitting programmes and highlighted the role of a carbon neutral transport system.

The following points were made:-

- The potential of bus franchising in GM will not only enable greener public transport but also opportunities for business generation in Greater Manchester.
- Green efficiencies and links to digitalisation requires processes to keep people and data safe online.
- A Member welcomed the report and noted the progress made.
- A Member highlighted the gaps in supply for charging points for electric vehicles and suggested that this will challenge the progress towards net zero travel. In response, it was noted that there is a plan in place to deliver support for electric vehicles. A Member noted that bus franchising and other transport modes need to be more attractive for people to reduce car usage and that investment in infrastructure required a long term plan.

RESOLVED/-

That the presentation be received and noted with thanks.

EO&S21/24 YOUNG PERSONS' GUARANTEE

The Chair explained that this item will be deferred to a future meeting of this Committee.

EO&S21/25 DEVOLVED ADULT EDUCATION BUDGET - PROPOSED PRIORITIES AND APPROACH FOR 2022/2023 ONWARDS

Members received a report and presentation which provided an overview of the progress against the planned priorities since the inception of GM's devolved Adult Education Budget (AEB) programme.

An outline of the proposed process for continuing plan-led grant funding agreements and extensions to the procured contracts for 2022/2023 (academic year) was presented, together with an outline of the proposed refreshed objectives for the Adult Education Programme, in preparation for implementation from 2022/2023 (academic year).

Members noted that the final recommendations will be published at the upcoming meeting of the GM Combined Authority on 17 December 2021.

The following points were made:-

- The positive impact of devolution has allowed for GM to work with a concentrated group of skills providers.
- Better collaborative working has helped bring programmes together, such as the Working Well programme.
- Work taking place to enable residents to understand those offers available, for 2022/2023.
- A Member welcomed the work to support residents with high needs and disabilities to lead independent lives. The Member enquired if this would also allow support for employment.
- A Member asked if work would take place to enable skilled refugees to be able to use their expertise transferable in the UK. In response, any assessment will require an understanding of attainment and where there may be gaps, the individual may be offered appropriate training.
- The Chair welcomed opportunities for life-long learning.
- Following an enquiry from a Member, officer noted that some community learning can be accessed for individual training needs.

RESOLVED/-

1. That the GM Skills Team be thanked for their work on this initiative.
2. That the information contained within the presentation, including progress and impact of the devolved AEB, arrangements for 2022/2023 (academic year) onwards and refresh of the AEB objectives, be supported.

EO&S21/26 REGISTER OF KEY DECISIONS

Members are asked to note and comment on the GMCA Register of Key Decisions for the period 1st December 2021 to 31st March 2022.

RESOLVED/-

That the register of key decisions be noted.

EO&S21/27 COMMITTEE WORK PROGRAMME 2021-2022

Members considered the committee work programme for the 2021-2022 municipal year.

RESOLVED/-

That the Committee Work Programme be noted.

EO&S21/28 DATES AND TIMES OF FUTURE MEETINGS

RESOLVED/-

That the future programme of meetings, as set out below, be noted:-

Friday 14 January 2022, Friday 4 February 2022, Friday 11 March 2022.

All meetings will commence from 10:30 am.

EO&S21/29 SEASONAL MESSAGE

The Chair wished Members and Officers a merry Christmas and a happy, safe and healthy 2022. Those sentiments were reciprocated.

**MINUTES OF THE MEETING OF THE
GREATER MANCHESTER TRANSPORT COMMITTEE
HELD ON FRIDAY 10 DECEMBER 2021 AT EXCHANGE HALL,
MANCHESTER CENTRAL CONFERENCE CENTRE**

PRESENT:

Councillor Mark Aldred (in the Chair)	Wigan Council
Councillor Stuart Haslam	Bolton Council
Councillor Mohammed Ayub	Bolton Council
Councillor Jackie Harris	Bury Council
Councillor Kevin Peel	Bury Council
Councillor Naeem Hassan	Manchester City Council
Councillor Howard Sykes	Oldham Council
Councillor Phil Burke	Rochdale MBC
Councillor Shah Wazir	Rochdale Council
Councillor Warren Bray	Tameside MBC
Councillor Roger Jones	Salford Council
Councillor Angie Clark	Stockport MBC
Councillor David Meller	Stockport MBC
Councillor Steve Adshead	Trafford Council
Councillor Nathan Evans	Trafford Council
Councillor Andrew Western	GMCA

OFFICERS IN ATTENDANCE:

Bob Morris	TfGM
Nicola Kane	TfGM
Simon Warburton	TfGM
Richard Nickson	TfGM
Kate Brown	TfGM
Gwynne Williams	Deputy Monitoring Officer, GMCA
Eve Holt	GM Moving
Nicola Ward	Senior Governance Officer, GMCA

ALSO IN ATTENDANCE:

Nigel Featham	Go North West
Charlie French	Avanti
Chris Jackson	Northern
Daniel Coles	Network Rail

GMTC 58/21 APOLOGIES

That apologies be received and noted from Councillors Emma Taylor, Dzidra Noor, Joanne Marshall, Paul Prescott, Norman Briggs, Doreen Dickinson, Tom McGee, John Leech, Barry Warner and Gary Nolan (One Bus).

GMTC 59/21 CHAIRS ANNOUNCEMENTS AND URGENT BUSINESS

There were no chairs announcements or urgent business.

GMTC 60/21 DECLARATIONS OF INTEREST

Resolved /-

1. That it be noted that Councillor Phil Burke declared a personal interest in relation to item 9, Transport Network Performance.
2. That it be noted that Councillor Jackie Harris declared a personal interest in relation to item 7, Integrated Rail Plan.

GMTC 61/21 MINUTES OF THE GM TRANSPORT COMMITTEE MEETING HELD 15 OCTOBER 2021

Resolved /-

That the minutes of the GM Transport Committee meeting held 15 October 2021 be approved as a correct record.

GMTC 62/21 MINUTES OF THE GM TRANSPORT COMMITTEE SUB COMMITTEE MEETINGS

Resolved /-

1. That the minutes of the GMTC Sub Committees as below be noted.
 - Metrolink & Rail Sub Committee – 12 November 2021
 - Bus Services Sub Committee – 19 November 2021
2. That Bob Morris, Chief Operating Officer (TfGM) would be available to discuss Bury Council's proposal for free weekend bus travel further with Councillor Kevin Peel at the end of the meeting.

GMTC 63/21 2040 DELIVERY PLAN ANNUAL PROGRESS REPORT

Nicola Kane, Head of Strategic Planning and Research (TfGM) introduced a report which updated Members on the development and future publication of the Greater Manchester Transport Strategy 2040 Progress Report. The Committee were reminded that the Transport Strategy was published in January 2021 and of their role in monitoring its delivery. Members were given the opportunity to review what would be included within the progress report in February 2022 and determine whether the proposed sections were sufficient. There was support for the outlined sections and the Committee welcomed an opportunity to review the progress report at their next meeting.

Resolved /-

1. That the proposed content for the Greater Manchester Transport Strategy 2040

progress report be noted.

2. That the Annual Progress Report of the 2040 Greater Manchester Transport Strategy be brought to the meeting of the GM Transport Committee in February 2022.

GMTC 64/21 INTEGRATED RAIL PLAN UPDATE

Simon Warburton, Transport Strategy Director (TfGM) took Members through a report which provided information on the content of the Integrated Rail Plan (IRP) for the North and the Midlands. The Plan, initially anticipated for 2020, was a critical piece of national policy that set out Government's priorities against the delivery of HS2 and Northern Powerhouse Rail both of which were critical components of Greater Manchester's Transport Plan and the Northern Transport Strategy. With reference to HS2, the IRP confirmed Government's intention to put forward a Hybrid Bill in 2022 that would enable the delivery of Phase 2b – the western leg from Crewe, through Manchester Airport to Manchester Piccadilly.

It was also anticipated that the Bill would include provision for the Golbourne link, which had also been referenced in the recently published Union Connectivity Review and alternative options offered. As there had been no response from Government on this review it was expected that the initial plans for the Golbourne link would still be progressed.

Other routes in and out of Manchester remained equally as critical and featured in the IRP, including the construction of a new line along the Fiddlers Ferry route to Liverpool via Warrington. The proposals further referenced an upgrade to the Trans Pennine Route to the east of the conurbation with new tracks from Manchester Piccadilly to Marsden and then a re-connection back to the current Trans Pennine line. However, this proposal was counter to that preferred by Transport for the North which included a new route from Manchester to Leeds via Bradford, and TfGM had requested sight of the evidence base as to why this line had been discounted.

With regards to Manchester Piccadilly Train Station, specifically the IRP plans included a six-platform surface station, with additional track to the east towards Marsden, potential tunnels were yet to be confirmed.

For the other northern areas, there was deep dissatisfaction that the eastern leg of HS2 was no longer part of HS2, which would likely have an indirect negative impact on Greater Manchester. Furthermore, the Plan gave indication of a delayed delivery phase for the western leg, clarity on which was still being sought from the Department of Transport, however, would prove fundamental in relation to local planning.

Although Members were pleased to see the plans to extend HS2 to Manchester, concerns were raised as to the significant negative impact to economic growth for towns on the east coast as a result of Government not fulfilling their promise to deliver HS2 to Leeds and its potential impact to GM.

Members were further concerned as to why Government proposals for Manchester Piccadilly did not include underground platforms as put forward by GM. Officers confirmed that further clarity was being sought from DfT as to why these elements were not included within the IRP but following this, further consideration could be given as to how best to advise the GMCA on taking this issue forward again with Government.

The cross-party support for the initial proposals for HS2 in 2009 was reflected on and Members were reminded that without HS2 there would be no way to alleviate congestion on local lines. Taking the high-speed trains off the currently highly pressured network would help to improve services for local people to travel in and around Greater Manchester with less delays and more frequent services.

The current consultation on the May 2022 rail timetable was due to close at the end of December, and Members requested further advice and information as to how best to respond to this consultation as soon as possible.

With regards to Stockport Train Station, it was recognised that there were already significant congestion issues that needed addressing before the introduction of HS2, and Members questioned as to whether the plans for a stopping service as part of phase 2a was still proposed. Officers confirmed that it seemed Government's intention remained to have a stopping station at Stockport throughout this phase although from Crewe trains would be required to re-join the West Coast Mainline. Further clarity as to the long-term service pattern for the west coast operation was currently being sought from DfT, however it was anticipated that proposals for tram/train from Stockport-Altrincham and a link from Stockport to Manchester Airport had the potential to further alleviate the congestion issue.

The electrification of the Trans Pennine line was noted by Members as having the potential to cause significant periods of disruption and further details of a timeline of delivery were welcomed. Officers confirmed that these were currently being sought, along with the specific impact on GM boroughs.

Members were frustrated that although HS1 had seen significant costs supported, savings were now being transferred to HS2 at the expense of northern towns. The scaled down proposals as detailed in IRP would not enable the full economic growth potential and Members wished to convey that this was not an acceptable solution. Officers confirmed that the necessary clarity on specifics was expected from DfT in advance of the Transport for the North meeting in January, and once received would be circulated to the Committee. However in anticipation of this, there was ongoing liaison with all GM Local Authorities as to the implications for their specific elements of the system.

Furthermore, the Committee recognised that transport was an enabler that allowed Greater Manchester to grow. There was much that the GMCA did for itself, but when it came to transport infrastructure development it was imperative to receive Government support. The consequences of the offer contained within the IRP could be severe in relation to levelling up communities of GM and across the North, especially those areas along the Trans Pennine line.

Resolved /-

1. That the report be noted.
2. That the GM Transport Committee be kept up to date as the implications for Greater Manchester as a result of the Integrated Rail Plan (IRP) are more fully understood.
3. That TfGM provide a briefing to Members on the proposed new rail timetable for May 2022 currently in consultation.
4. That feedback in relation to the conversation on the IRP at the TfN Board Meeting in January be shared with Members of the Committee.

5. That the position of Trafford Council be noted in relation to the potential negative impact to the Warburton area as a result of the Golbourne link and that they had put forward alternative ways to increase the capacity on the West Coast Mainline.

GMTC 65/21 ACTIVE TRAVEL UPDATE WITH SPECIFIC FOCUS ON OVER 50'S AND CHILDREN & YOUNG PEOPLE INITIATIVES

Richard Nickson, Programme Director for Walking and Cycling (TfGM) introduced a report which provided Members with an update of the TfGM active travel programme with specific focus on over 50's and children and young people initiatives. In relation to active travel for the over 50's it was reported that a large proportion of this demographic group walk regularly, however require safe routes with good quality pavements, sufficient lighting etc. There were a number of initiatives detailed in the report that support children and young people to be active, including cycle hire projects, bike loan schemes and school streets initiatives which give priority to other modes than the car around a school location for certain periods of the day.

Eve Holt, Strategic Director (GM Moving) offered further supporting information and a reflection on the previous report to the GM Transport Committee within which a commitment was made by GM Moving to identify further opportunities for tackling the unequal access to active travel through increased levels of engagement with key organisations, community groups and targeted projects. This subsequent report provided a deep dive into the provision for older people, children and young people and created a platform by which this work could be further promoted.

Members welcomed the report, specifically details on those interventions designed to create a new generation of active travel users in children and young people. However, asked whether local schemes were able to assist them in their knowledge, awareness and confidence around new road junctions or other infrastructure developments. Further to this, Members also reflected on the barriers to active travel, including affordability of bikes and urged for more areas to be supported to establish their own bike library. Officers agreed that financial barriers could often prevent people from cycling, especially young people, but reported that there was work underway at a national level to address the cost of bikes and potential for social prescribing projects to further assist with this provision.

In relation to the school streets initiatives, there were mixed responses across communities as to the desire for such schemes around their local schools. Officers confirmed that any school streets initiative would only be implemented with local support and initial engagement would not only take place with the relevant local authority, but with the school and parents. It was reported that where schemes had been introduced, they had been very popular and had assisted with breaking the cycle of reliance on the car. Often schemes were introduced with the support of other initiatives including 'Bikeability' etc in recognition that there were different approaches required for each school as each community had its own specific needs. However, what was clearly shared was a need for a holistic approach to create the cultural shift required to see active modes being predominately used. Officers reported that in the new year there would be a reinvigoration of the Behaviour Change Group across Local Authorities and TfGM to enable best practice to be shared and a strong focus to be given to this approach.

Members endorsed all efforts towards an active travel first approach, that enabled people to see themselves as multi-modal and create the level of cultural shift required to get the full

potential from a transformed public transport network in Greater Manchester. Officers acknowledged that there was a significant challenge ahead but that the GM Transport Strategy was geared around changing behaviours which allowed GM to speak with one voice on this agenda. Further support had been produced and was available through the active travel website to assist Local Authorities with designing their active travel schemes in line with best practice.

The Committee were reminded that all people were partners in places and all advocates for active travel, recognising that everyone receives messaging differently. However, the key was equipping people with a range of relevant information that they could share through their networks as appropriately.

Resolved /-

1. That the report be noted.
2. That feedback as to whether cycling proficiency courses now include training on specific local junctions (especially those newly installed) be provided through the next report to Committee.
3. That TfGM would provide a progress update to Councillor Meller in relation to the delay in light installation for a new zebra crossing.

GMTC 66/21 TRANSPORT NETWORK PERFORMANCE

Bob Morris, Chief Operating Officer (TfGM) took Members through the latest transport network performance report which highlighted that overall trips in October were lower than those in September, however public transport trips had seen an increase of 6% over the same period. Metrolink performance had been impacted by driver availability, as had performance of the bus network. However more positively, Northern had experienced the highest commuter increase on rail services across the UK.

Operators in attendance were invited to provide an update to the Committee.

Northern reported that there would be a slight timetable change from Sunday 12 December to assist with the resourcing issues as a result of staff unavailability. Face covering compliance was mixed, however following Government's announcement there had been a reduction in patronage resulting in a higher percentage of compliance. It was anticipated that this would increase further following the change to legislation from 16 December. Staff at Northern had been providing additional support for the Christmas markets and evening economy in Manchester which was greatly welcomed, however this had not not helped by the significant disruptions as a result of recent stormy weather. Across the industry there were reported pockets of industrial unrest, therefore contingency planning was underway in the event of this further affecting the workforce.

Metrolink also reported the impact on staff availability in delivering the current timetable, however noted thanks to all partner organisations for their support in the continued approach to tackling anti-social behaviour on the network which was seeing positive results. Despite the current challenges in the sector, KAM were pleased to report that Metrolink had achieved recent certifications for safety and environmental efforts.

Network Rail reported that key critical infrastructure points were currently in a strong state,

however risks had been identified where staffing levels were minimal and contingency planning was in place should any incidents occur. In relation to Manchester Piccadilly Train Station, footfall was stable c 80,000 people per day through the week, and at normal levels at weekends. Current passenger advice that was being given included, check timetable before travel, get an earlier train where possible as last trains were often busy and respect fellow passengers and staff. Work to platforms 13 & 14 lift was due to begin on the 31 January, with a temporary stair lift being installed over this period to further assist the mobility service at the station.

West Coast Partnership updated the Committee on the planned timetable change from Sunday 12 December, re-introducing the third train per hour on the Manchester to London route, taking the overall timetable across the network to 86% of pre-covid levels. Patronage demand had been continuing to grow and positively and business travel was now reported at 30-40% of pre-covid levels and continuing to climb.

Go North West reported that bus operators were also experiencing staffing issues, however were stable. Current patronage levels were c. 80% of pre-covid levels. Network coverage remained high but was planned to be reduced slightly in order to maintain high service levels. Government support post March 2022 was still uncertain, and timetabling was difficult to predict in light of the current covid situation.

Members recognised that in light of covid cases being on the rise and further restrictions being imposed that this would bring about additional pressures to transport operators and requested that TfGM specifically review the current Metrolink timetable to ensure that it could work within these parameters but still ensure safe capacity levels.

The report had highlighted comparably high number of anti-social behaviour incidents in Stockport, and Members urged that the Chief Superintendent from GMP be engaged with work to address this.

In relation to the new ticket machines installed at Stockport Train Station, it was reported that it was a significantly complicated process to purchase a return ticket. Network Rail informed the Committee that these were part of a suite of new machines across the network, currently operating on a base configuration, however the quick buy options would become localised through a forthcoming software update. In the meantime, additional staff had been deployed to support passengers who were having difficulties with this process.

Members were pleased to see an overall higher level in face covering compliance and an increase in leisure travel. Additional communications were felt to be a useful way to continue to build public confidence in using the public transport network despite recent government announcements.

The Hope Valley line had experienced a number of short forming trains over recent weeks, Northern reported that this was due to units being out of service due to wheel flats brought about by fallen leaves. However, most were now back on the network.

It was also reported that Members had experienced the barrier gates being open at Manchester Piccadilly, potentially impacting revenue protection.

Members noted the ongoing personal case for an employee of Go North West in relation to safe use of the mirrors when driving one of the new vehicles. An update on the outcome of these discussions would be shared with Committee in due course.

Resolved /-

1. That the contents of the report be noted.
2. That it be noted that TfGM are reviewing timetable options for Metrolink whilst ensuring capacity is not compromised.
3. That it be noted that Network Rail offered to provide an update to Councillor David Meller on the status of the planned cleaning of Stockport Viaduct.
4. That Members continue to receive regular network performance reports, specifically detailing patronage projections and information on current and anticipated Government financial support.

GMTC 67/21 CHRISTMAS AND NEW YEAR PLANNING 2021-22

Bob Morris, Chief Operating Officer (TfGM) introduced a report which provided an update on transport provision during the 2021-22 winter period, including over Christmas and the New Year.

Members queried as to the timetable for Metrolink on New Years Eve, officers confirmed that this was yet to be proposed and confirmed with TfGM.

Resolved /-

That the ongoing planning and delivery of transport services and interventions over the winter period as detailed in the report, be noted.

GMTC 68/21 GM TRANSPORT COMMITTEE WORK PROGRAMME

Members were given the opportunity to review the forthcoming work programme for the Committee.

Resolved /-

That the Committee's Work Programme be noted.

GMTC 69/21 DATES AND TIMES OF FUTURE MEETINGS

Resolved /-

That the Committee notes that it next meet on 18th February 2022.
