

**GREATER MANCHESTER TRANSPORT COMMITTEE -  
BUS SERVICES SUB-COMMITTEE**

**DATE:** Friday, 10th March, 2023

**TIME:** 10.30 am

**VENUE:** The Tootal Buildings - Broadhurst House , 1st Floor, 56  
Oxford Street, Manchester, M1 6EU

**AGENDA**

1. **Apologies**
2. **Chairs Announcements and Urgent Business**
3. **Declarations of Interest** 1 - 8  
To receive declarations of interest in any item for discussion at the meeting. A blank form for declaring interests has been circulated with the agenda; please ensure that this is returned to the Governance & Scrutiny Officer 48 hours in advance of the meeting.
4. **Minutes of the Bus Services Sub Committee meeting held 20 January 2023** 9 - 18  
To consider the approval of the minutes of the meeting held on 20 January 2023.

<b>BOLTON</b>	<b>MANCHESTER</b>	<b>ROCHDALE</b>	<b>STOCKPORT</b>	<b>TRAFFORD</b>
<b>BURY</b>	<b>OLDHAM</b>	<b>SALFORD</b>	<b>TAMESIDE</b>	<b>WIGAN</b>

- 5. Changes to the Bus Network and Review of Subsidised Bus Services Budget** 19 - 72
- Report of Stephen Rhodes, Director of Bus, Transport for Greater Manchester (TfGM).
- Report to follow.
- 6. Bus Performance Report** 73 - 92
- Report of Stephen Rhodes, Director of Bus, Transport for Greater Manchester (TfGM).
- Report to follow.
- 7. Bus Operators Update**
- 8. Work Programme** 93 - 98
- To comment on the proposed Work Programme for the GM Transport Committee and Sub Committees.
- 9. Exclusion of the Press and Public**
- That, under section 100 (A)(4) of the Local Government Act 1972 the press and public should be excluded from the meeting for the following items on business on the grounds that this involved the likely disclosure of exempt information, as set out in the relevant paragraphs of Part 1, Schedule 12A of the Local Government Act 1972 and that the public interest in maintaining the exemption outweighed the public interest in disclosing the information.
- 1. Forthcoming Changes to the Bus Network - Part B** 99 - 102
- Report of Stephen Rhodes, Director of Bus, Transport for Greater Manchester (TfGM)

For copies of papers and further information on this meeting please refer to the website [www.greatermanchester-ca.gov.uk](http://www.greatermanchester-ca.gov.uk). Alternatively, contact the following Governance & Scrutiny Officer: [elaine.mottershead@greatermanchester-ca.gov.uk](mailto:elaine.mottershead@greatermanchester-ca.gov.uk)

This agenda was issued on 2 March 2023 on behalf of Julie Connor, Secretary to the Greater Manchester Combined Authority, Broadhurst House, 56 Oxford Street, Manchester M1 6EU

## Declaration of Councillors' Interests in Items Appearing on the Agenda

Name and Date of Committee.....>

Agenda Item Number	Type of Interest - PERSONAL AND NON PREJUDICIAL Reason for declaration of interest	NON PREJUDICIAL Reason for declaration of interest Type of Interest – PREJUDICIAL Reason for declaration of interest	Type of Interest – DISCLOSABLE PECUNIARY INTEREST Reason for declaration of interest
Page 1			

Please see overleaf for a quick guide to declaring interests at GMCA meetings.

## Quick Guide to Declaring Interests at GMCA Meetings

Please Note: should you have a personal interest that is prejudicial in an item on the agenda, you should leave the meeting for the duration of the discussion and the voting thereon.

This is a summary of the rules around declaring interests at meetings. It does not replace the Member's Code of Conduct, the full description can be found in the GMCA's constitution Part 7A.

Your personal interests must be registered on the GMCA's Annual Register within 28 days of your appointment onto a GMCA committee and any changes to these interests must notified within 28 days. Personal interests that should be on the register include:

1. Bodies to which you have been appointed by the GMCA
2. Your membership of bodies exercising functions of a public nature, including charities, societies, political parties or trade unions.

**You are also legally bound to disclose the following information called Disclosable Personal Interests which includes:**

1. You, and your partner's business interests (eg employment, trade, profession, contracts, or any company with which you are associated).
2. You and your partner's wider financial interests (eg trust funds, investments, and assets including land and property).
3. Any sponsorship you receive.

**Failure to disclose this information is a criminal offence**

**Step One: Establish whether you have an interest in the business of the agenda**

1. If the answer to that question is 'No' then that is the end of the matter.
2. If the answer is 'Yes' or Very Likely' then you must go on to consider if that personal interest can be construed as being a prejudicial interest.

## Step Two: Determining if your interest is prejudicial

A personal interest becomes a prejudicial interest:

1. where the wellbeing, or financial position of you, your partner, members of your family, or people with whom you have a close association (people who are more than just an acquaintance) are likely to be affected by the business of the meeting more than it would affect most people in the area.
2. the interest is one which a member of the public with knowledge of the relevant facts would reasonably regard as so significant that it is likely to prejudice your judgement of the public interest.

### For a non-prejudicial interest, you must:

1. Notify the governance officer for the meeting as soon as you realise you have an interest.
2. Inform the meeting that you have a personal interest and the nature of the interest.
3. Fill in the declarations of interest form.

### To note:

1. You may remain in the room and speak and vote on the matter

2. If your interest relates to a body to which the GMCA has appointed you to, you only have to inform the meeting of that interest if you speak on the matter.

### For prejudicial interests, you must:

1. Notify the governance officer for the meeting as soon as you realise you have a prejudicial interest (before or during the meeting).
2. Inform the meeting that you have a prejudicial interest and the nature of the interest.
3. Fill in the declarations of interest form.
4. Leave the meeting while that item of business is discussed.
5. Make sure the interest is recorded on your annual register of interests form if it relates to you or your partner's business or financial affairs. If it is not on the Register update it within 28 days of the interest becoming apparent.

### You must not:

Participate in any discussion of the business at the meeting, or if you become aware of your disclosable pecuniary interest during the meeting participate further in any discussion of the business,  
participate in any vote or further vote taken on the matter at the meeting.

**MINUTES OF THE MEETING OF THE  
GREATER MANCHESTER TRANSPORT BUS SERVICES SUB-COMMITTEE  
HELD ON FRIDAY 20 JANUARY 2023  
AT THE GMCA OFFICE, CHURCHGATE HOUSE, MANCHESTER**

**PRESENT:**

Councillor Roger Jones (Chair)	Salford Council
Councillor Jo Lancaster	Bury MBC
Councillor Tracey Rawlins	Manchester City Council
Councillor George Hulme	Oldham Council
Councillor Phil Burke	Rochdale Council
Councillor David Meller	Stockport MBC
Councillor Warren Bray	Tameside MBC
Councillor Linda Blackburn	Trafford Council
Councillor John Vickers	Wigan Council
Councillor Mark Aldred	Wigan Council

**OFFICERS IN ATTENDANCE:**

Stephen Rhodes	Director of Bus, Transport for Greater Manchester (TfGM)
Nick Roberts	Head of Services & Commercial Development, TfGM
Jenny Coates	Bus Planning Manager (Funding & Development), TfGM
Nicola Ward	Governance & Scrutiny Team
Elaine Mottershead	Governance & Scrutiny Team

## **OPERATORS IN ATTENDANCE:**

Tom Calderbank	Diamond
Paul Townley	First Bus
John Roxburgh	Go North West
Alan French	Stagecoach
Richard Greaves	Stagecoach
Adam Clarke	Stagecoach
Paul Turner	Trans Dev

## **GMTBSC 01/23 APOLOGIES**

### **RESOLVED /-**

That apologies be received and noted from Councillor Howard Sykes (Oldham), Bob Morris from Transport for Greater Manchester (TfGM) and Alistair Nuttall (Arriva).

## **GMTBSC 02/23 CHAIRS ANNOUNCEMENTS AND URGENT BUSINESS**

There were no Chair's announcements or items of urgent business.

## **GMTBSC 03/23 DECLARATIONS OF INTEREST**

There were no declarations of interest in relation to any item on the agenda.

## **GMTBSC 04/23 MINUTES OF THE GM TRANSPORT BUS SERVICES SUB COMMITTEE MEETING HELD 18 NOVEMBER 2022**

### **RESOLVED /-**

That the minutes of the GM Transport Bus Services Sub Committee meeting held 18 November 2022 be approved as a correct record.

## **GMTBSC 05/23      CHANGES TO THE BUS NETWORK AND REVIEW OF SUBSIDISED BUS SERVICES BUDGET**

Diamond commented on the main changes in Annex A which detailed the proposed changes to some of their services from April 2023. They confirmed that there was a requirement for an operator to give 112 days' notice of such changes. However, that notice period had coincided with a confidentiality period connected with the bus franchise procurement timetable. This resulted in the announcement of the changes being made within 48 hours of the award of franchising contracts. Diamond's decision included the reduction of their Bolton operation by 50 vehicles and they were keen to highlight that this was not financially motivated but rather to provide stability and mitigate the impact of future network changes.

Members expressed their concerns over this decision. This Committee recognised that considering the proposed franchising arrangements was outside of their remit but they had expected they would be involved in any impact on services as a result of any franchise arrangements and had also assumed this would not be necessary until later in the year. They acknowledged Diamond's insistence that it was not a commercial decision, however, it was noted that the commercial services were those identified for change whilst subsidised routes remained unaffected. Members requested that Diamond defer their decision until the next meeting of this Committee in February.

Diamond responded to say that, until recently, only 70 days' notice was required and they had, therefore, given more notice than usual of the changes. They confirmed that, as a commercial company, they considered all their routes as commercially viable. They did not give Members any reassurances that the service changes, or their decision, could be deferred until February but they confirmed that they would be willing to continue discussions.

Councillor Burke read out a statement regarding the 163 bus, the only service linking Heywood and Manchester. A request was made for a full review of bus services across Heywood and Middleton, along with protection for the 163 service and the provision of a long-term sustainable bus service across the community which would put passengers before profit.

Members raised concerns about the 524, 520 and 575 services in Bolton in that any curtailment of services in these areas could lead to further isolation for residents as there were no alternative public transport modes available.

Diamond stated that their decision had been made in response to shortage of drivers, congestion challenges and the uncertainty of contracting arrangements over the next few months. They confirmed that they had tried to minimise impact and, in many cases, had withdrawn services that overlapped with others so that there would still be alternative options available for passengers.

Officers assured Councillors that they were working on plans in response to Diamond's decision.. They confirmed that they would cover the services in the short-term where possible and this could include arrangements with other operators. Officers assured Members that they would be kept informed.

Members repeated their concerns that this situation had occurred and stated that this situation needed to be avoided for future franchising milestones to protect existing services. It was suggested that the procurement process should have restrictions or weighting levels that prevented companies from being able to bid and win contracts and then withdraw from services in this way. Officers were unable to give this assurance to Members, given the legal framework of the procurement and franchising procedures, however would look to mitigate any future risk to further services where possible.

Officers also reported that work had started with the successful operators to ensure successful implementation in September including handover arrangements and staff transfers under the regulations of TUPE (Transfer of Undertakings (Protection of Employment) Regulations 2006).

A member asked for more detail about the revisions to Atherton services 586 and 132 and officers agreed that they would provide this.

A member asked about the 755 service in Altrincham that did not provide access to the Girls Grammar School. Officers offered to have a discussion about this directly with the member.

## **RESOLVED /-**

1. That the changes on the commercial network set out in Annex A be noted.
2. That the impact of the changes set out in Annex A be the subject of a further report to the next meeting of this Committee.
3. That TfGM be asked to consider how they may be able to mitigate any risk to the de-registration of current services through future bus franchise procurement tranches.
4. That the proposed changes to general subsidised services set out in Annex C be agreed.
5. That TfGM would provide details of the revisions to services 586 and 132 directly to Councillor Vickers.
6. That TfGM would pick up the concerns of Cllr Blackburn in relation to service 755 not including Altrincham Girls Grammar School outside of the meeting.

## **GMTBSC 06/23 BUS OPERATORS UPDATE**

Stagecoach reported on driver shortages and their work on recruitment and retention which included a 15 minute reduction to the length of shifts to give longer recovery times. It was anticipated that this would improve staffing levels.

Stagecoach had reduced frequencies on some routes and re-invested the vehicles back into other areas. This had been introduced for services 230 and 231, following concerns raised by Councillor Bray about punctuality. Stagecoach had also liaised directly with Councillor Meller regarding service 328 that operated across two weight restricted bridges. The service needed to operate with a small vehicle but, at the same time, ensure that high demand from students was met. Stagecoach confirmed that an additional vehicle would be introduced from April 2023, at no extra cost, to meet this need.

Stagecoach had been running duplicates and planned to run more where possible. No other major changes were reported other than the usual seasonal changes across Summer and September.

Trans Dev reported that they had stabilised their staffing position with help from neighbouring depots. Other challenges included delays on basic maintenance and repair

components along with traffic congestion. Resilience remained low without spare drivers but work had been done with TfGM to address this issue. They expressed concern about the lack of consultation on cross-boundary permit schemes within the upcoming franchise arrangements which had caused a degree of uncertainty. They needed a better route for their services out of Manchester, up the A56 to Prestwich, and had been restricted by a delayed Traffic Order which would open a right turn from Princess Street into Cross Street. The delays had caused a diversion for two years.

An additional update from Diamond reported on a service change in Atherton from the end of January. A revised timetable was developed for the 516 and 583 services with five buses instead of four planned from the end of January. Diamond reported 90% of patronage compared to pre-Covid levels. They had driver shortages, most notably in Bolton, but were continuing to recruit.

First Bus remained above their required staffing levels and had recently recruited 55 people who were new to the industry. Current operation levels were 98% of their scheduled mileage. They had been dealing with sickness absences due to seasonal colds and flu but still managed to operate effectively.

First Bus reported 40 incidences of antisocial behaviour, which had been logged, but they had not received any specific interventions from the TravelSafe Scheme as a result. Incidences of broken glass had resulted in costs of £6,500 to First Bus and one incident with a school resulted in costs of £4,000. The school and GMP had provided support on this issue. TfGM offered to contact TravelSafe on their behalf and keep Councillor Aldred informed. It was also acknowledged that TravelSafe would be providing their six-monthly report to the Transport Committee in March. Members were reminded that all incidences needed to be reported as they occur in order for officers to take appropriate action.

Go North West reported driver shortages but also that there were signs of improvement with continued recruitment and reduced staff turnover. Their patronage numbers were fairly stable. Traffic congestion was particularly challenging in November and December but had since settled as expected. They anticipated operating more mileage towards the end of January and punctuality reviews were completed on the 93, 95, 97 and 98 services. Additional work had also been done with TfGM on services 6 and 129 to improve punctuality. The 162 service was now being operated by Go North West on behalf of TfGM to help bridge a gap in the network.

One Bus provided a general update with an overview of the current challenges faced by operators across the region. The operators had been faced with driver shortages, but congestion and lack of layover facilities had also affected resilience. The City Plan for Manchester City Centre had not recognised this need despite the request for 13 layover spaces. This was not related to commercial profits but to punctuality and reliability for the services. Operators were concerned that plans for new buses and capped fares would not succeed if the layover issues were not addressed.

One Bus were asked to write to Councillor Rawlins separately outlining their concerns on the City Plan.

A member raised a related issue concerning the condition of gulleys which had, in some instances, caused vehicles to swerve around large areas of collected water. It was acknowledged that this was part of the responsibilities of Highways Departments in Local Authorities.

In light of the comments and concerns raised about congestion, a report on the Greater Manchester Road Activity Permit Scheme would be requested.

Members gave positive feedback on some services which included the Vantage Service and improvements that had been made to the Ring and Ride Service after discussions were held with TfGM officers.

#### **RESOLVED /-**

1. That bus operators be thanked for their verbal updates, and their contents noted.
2. That bus operators and Members continue to contact TravelSafe to report any anti-social behaviour or safety concerns.
3. That TfGM would report recent damage to First Bus vehicles directly to TravelSafe and ensure that Councillor Aldred is included in any correspondence.
4. That a report on the Greater Manchester Road Activity Permit Scheme (GMRAPS) be brought to the next meeting the Greater Manchester Transport Committee.
5. That it be noted that Gary Nolan from One Bus would write separately to Councillor Tracey Rawlins (Executive Member for the Environment at Manchester City Council) regarding the City Plan for central Manchester and its impact on bus operations.

6. That operators be invited to contact Councillor Lancaster directly should they wish to be involved in the forthcoming Jobs Fair in Bury.
7. That it be noted that Stagecoach would write to Councillor Tracey Rawlins regarding the potential requirements for a permanent diversion away from Rusholme on Friday and Saturday evenings due to congestion levels.

### **GMTBSC 07/23 LOCAL LINK AND ASSESSIBLE TRANSPORT REVIEW**

Officers gave an update on the Local Link service, a pre-bookable minibus service. The Local Link Service was used in situations where few other transport options was available, for example, by shift workers or people in isolated areas, and would be cheaper than a conventional service. The passenger journey matrix had been considered costly but work had been done in the background to ensure its position as a social service. Officers had looked at where they could improve patronage and produced some extensive communications and stakeholder tools. Officers were keen to stress that, unlike the Ring and Ride service, the Local Link was a service for all users without any criteria applied.

Officers reported that the scheduling of the Ring and Ride had been brought in-house to co-ordinate it with the Local Link. It was noted that they already provide a key component of the Bee Network.

Officers had held meetings with Health and SEND colleagues to look at where expertise, efficiencies and support could be utilised in improving the Local Link service.

In response to a question from members, officers confirmed that these services were not part of the franchise procurement procedures, and would remain stand alone.

A member queried an area in Saddleworth with limited public transport options. Officers confirmed that they would be willing to discuss service boundaries if members wished to make representations.

A member disputed the level of publicity around these services, despite the report that extensive communications and stakeholder tools had been used. Officers stated that they would speak to Councillor Rawlins separately.

### **RESOLVED /-**

1. That thanks be expressed to officers at Transport for Greater Manchester (TfGM) for a comprehensive report.
2. That members be encouraged to contact TfGM with specific issues relating to their communities and the Local Link service.
3. That TfGM would speak directly to Councillor Rawlins regarding further promotional materials for Local Link within the Wythenshawe area.

### **GMTBSC 08/23 WORK PROGRAMME**

#### **RESOLVED /-**

That the proposed Work Programme for the GM Transport Committee and its Sub Committees be noted.

### **GMBSBSC 09/23 DATES AND TIMES OF FUTURE MEETINGS**

That the next meeting of the Bus Services Sub Committee be noted as Friday 10 March 2023.

### **GMBSBSC 10/23 EXCLUSION OF THE PRESS AND PUBLIC**

That, under section 100 (A)(4) of the Local Government Act 1972 the press and public should be excluded from the meeting for the following items on business on the grounds that this involved the likely disclosure of exempt information, as set out in the relevant paragraphs of Part 1, Schedule 12A of the Local Government Act 1972 and that the public interest in maintaining the exemption outweighed the public interest in disclosing the information.

**GMTBSC 11/23      CHANGES TO THE BUS NETWORK AND REVIEW OF SUBSIDISED  
BUS SERVICES BUDGET**

**RESOLVED /-**

That the Committee expressed significant concerns regarding the wider implications of the proposed de-registration of commercial services as highlighted in Annex A of the Changes to the Bus Network and Review of Subsidised Bus Services Budget (item 5) and would prepare a statement outlining these matters for consideration by the GM Transport Committee on 17 February.

## GREATER MANCHESTER TRANSPORT COMMITTEE

### BUS SERVICES SUB COMMITTEE

Date: Friday 10<sup>th</sup> March 2023

Subject: Changes to the Bus Network and Review of Subsidised Bus Services  
Budget - Part A

Report of: Stephen Rhodes, Director of Bus, TfGM

---

#### Purpose of Report

To inform Members of the changes that have taken place to the bus network since the last Bus Services Sub Committee meeting and report on action taken or proposed by Transport for Greater Manchester.

#### Recommendations:

Members are asked to:

1. Note and comment as appropriate on changes to the commercial network set out in Annex A;
2. Agree that no action is taken in respect of changes or de-registered commercial services set out in Annex A;
3. Agree the action taken in respect of the service change set out in Annex B;
4. Agree the proposed changes to general subsidised services set out in Annex C; and
5. Delegate authority to the Chief Executive TfGM and GMCA, in consultation with the GMTCC Chair and Manchester City Council, to agree changes to the Manchester City Centre Free Bus service to commence on 16th April 2023.

<u>BOLTON</u>	<u>MANCHESTER</u>	<u>ROCHDALE</u>	<u>STOCKPORT</u>	<u>TRAFFORD</u>

## **Equalities Implications**

An Equality Impact Assessment (EqIA) has been undertaken to identify potential implications of the proposed network changes being implemented by bus operators on various protected groups and the extent to which TfGM's proposed response will mitigate these. This EqIA identified a number of potential negative impacts on groups with protected characteristics should services need to be withdrawn or significantly reduced as a result of these proposals – including access to healthcare facilities for the disabled and elderly; access to education for young people; and a disproportionate impact on BAME and low-income households who are more reliant on bus services.

Given that TfGM has intervened to replace withdrawn services and reduced frequencies, the impact will be marginal in the short to medium term.

# 1. Introduction/Background

- 1.1. The Bus Services Sub Committee of the Greater Manchester Transport Committee considers matters relating to the operation and service performance of the bus network in Greater Manchester, including commercially registered and subsidised services; Demand Responsive Services, bus stations and bus stops; passenger information services; contract monitoring; vehicle standards; and passenger safety for the subsidised bus network.
- 1.2. Acting under delegated authority, the Sub Committee is tasked to review closely and approve all proposed changes to the subsidised bus network and ensure that the cost of the subsidised general services is kept within the appropriate budget or any cash limits. This is achieved through: -
  - rationalisation of existing services whilst maintaining key links on the network;
  - engaging with operators with the objective of them taking on “marginal commercial” services; and
  - continuing to redesign and restructure grouped services to ensure that maximum value is obtained from subsidy.
- 1.3. In general, withdrawals, reductions or amendments to services are currently only planned at the date of next renewal of the contract concerned and proposed changes will be reported to this Sub Committee.
- 1.4. The governance process that leads up to the reporting to the Bus Services Sub Committee involves the scrutiny of all tendered services at TfGM’s Tender Panel that consists of representatives from Legal, Procurement and Finance as well as TfGM’s Bus Services team.

## 2. 2022/23 BUDGET SUMMARY

- 2.1 The summary below provides the current position on the 2022/23 Subsidised Bus Services budget for the ten months to 31st January 2023.
- 2.2 The budget table includes the planned Bus Network Review interventions which came into effect from the 30<sup>th</sup> October 2022.

	Year to date - January 23				22/23
	Actual	Budget	Variance		Budget
		£000	£000	%	£000
<b>General Network Costs</b>					
General Bus Services	20,814	21,197	382	1.8%	25,561
Network Stabilisation	3,643	-	(3,643)		0
Local Link	1,358	1,508	150	9.9%	1,806
Shuttles	1,601	1,213	(388)	(31.9%)	1,242

<b>Schools Services Costs</b>	11,835	12,137	302	2.5%	14,879
<b>Total – Subsidised Services costs</b>	<b>39,252</b>	<b>36,055</b>	<b>(3,197)</b>	<b>(8.9%)</b>	<b>43,489</b>
<b>General Network Income</b>					
General Bus Services	5,345	5,679	(334)	(5.9%)	6,949
Network Stabilisation	3,643	-	3,643		-
Local Link	77	75	2	2.6%	89
Shuttles	805	588	217	36.9%	588
Sub-Total General Network	9,870	6,342	3,528	55.6%	7,626
<b>Schools Services income</b>	4,682	5,020	(339)	(6.7%)	6,189
<b>Total – Subsidised Services income</b>	<b>14,552</b>	<b>11,362</b>	<b>3,190</b>	<b>28.1%</b>	<b>13,815</b>
<b>Net Cost - Subsidised Services</b>	<b>24,700</b>	<b>24,692</b>	<b>(8)</b>	<b>(0.0%)</b>	<b>29,674</b>

### **3. CHANGES TO THE COMMERCIAL NETWORK (ANNEX A)**

3.1 Annex A to this report lists changes to commercial services which, in the view of Transport for Greater Manchester, are not sufficiently significant to require the provision of subsidised service replacements. Brief details of the implications of the changes are provided.

### **4. CHANGES TO THE COMMERCIAL NETWORK (ANNEX B)**

4.1 Annex B to this report lists changes to commercial services and provides brief details of the implications of these changes, which officers believe are of sufficient importance to require action by Transport for Greater Manchester.

### **5. CHANGES TO GENERAL SUBSIDISED SERVICES (ANNEX C)**

5.1 Annex C to this report lists proposals for changes to general subsidised services on which the views of Members are requested. Information is given about the reasons for proposing these changes.

### **6. FINANCIAL IMPLICATIONS**

6.1 Financial implications are set out in Part B of the report.

### **7. RECOMMENDATIONS**

7.1 Recommendations are set out at the front of this report.

**Stephen Rhodes**

## SIGNIFICANT CHANGES TO THE COMMERCIAL NETWORK

## ANNEX B

As previously reported to the Bus Services Sub-Committee, Diamond Bus and Vision Bus advised TfGM of a number of changes planned for April 2023, with Diamond Bus North West registering the withdrawal of all commercial journeys on six routes, and frequency reductions on five other routes. In addition, Vision Bus have de-registered all remaining commercial journeys on one further service. All changes are due to take effect on 16th April 2023.

A request was made for authority to be delegated to the GMCA/TfGM Chief Executive, in consultation with the GMTC Chair, to approve the associated TfGM action on this occasion. This enables the replacement services to be registered ahead of the deadline of 3<sup>rd</sup> March and allow operators to make the necessary preparations ahead of starting contracted operations on 16<sup>th</sup> April.

The report submitted to the 17<sup>th</sup> February 2023 meeting of GMTC is appended to this report for information. Members are asked to note the TfGM action below.

# CHANGES TO THE SUBSIDISED NETWORK

# ANNEX C

Dist	Service, route and operator	TfGM officer comments and recommendations
MR	1, 2, 3 Free Bus, Manchester City Centre	<p>The Free Bus service is a free to use city centre shuttle bus service provided with support from Transport for Greater Manchester and Manchester City Council. It links key destinations including visitor attractions and retail destinations with transport hubs and rail stations.</p> <p>Changes to the service are planned from April 2023 however the details of these changes are still being finalised in consultation with Manchester City Council.</p> <p><b>Approval is sought for authority to be delegated to the Chief Executive TfGM and GMCA, in consultation with the GMTC Chair and Manchester City Council, to agree these changes to commence on 16<sup>th</sup> April 2023.</b></p>
TE MR	<p>151 Ashton – Failsworth – North Manchester General Hospital</p> <p><i>Stotts</i></p>	<p>The Monday to Saturday hourly day-time service 151 is currently provided with the financial support from Transport for Greater Manchester.</p> <p>The operator has reported that the service is experiencing punctuality problems on all days. TfGM officers are recommending revising the service to improve punctuality.</p> <p>As part of this revision, the first journey towards North Manchester General Hospital on Mondays to Fridays, will be shortened to start from Ben Brierley in Moston, instead of starting from Failsworth Tesco. During the period September to November 2023 only 26 passengers (less than 1 passenger per day) used this first weekday journey at the stops to be withdrawn. (see map below showing affected section of first morning journey)</p> <p>There are no financial implications arising from this proposal.</p> <p><b>Members are asked to approve this recommendation which would be effective from 16<sup>th</sup> April 2023.</b></p>

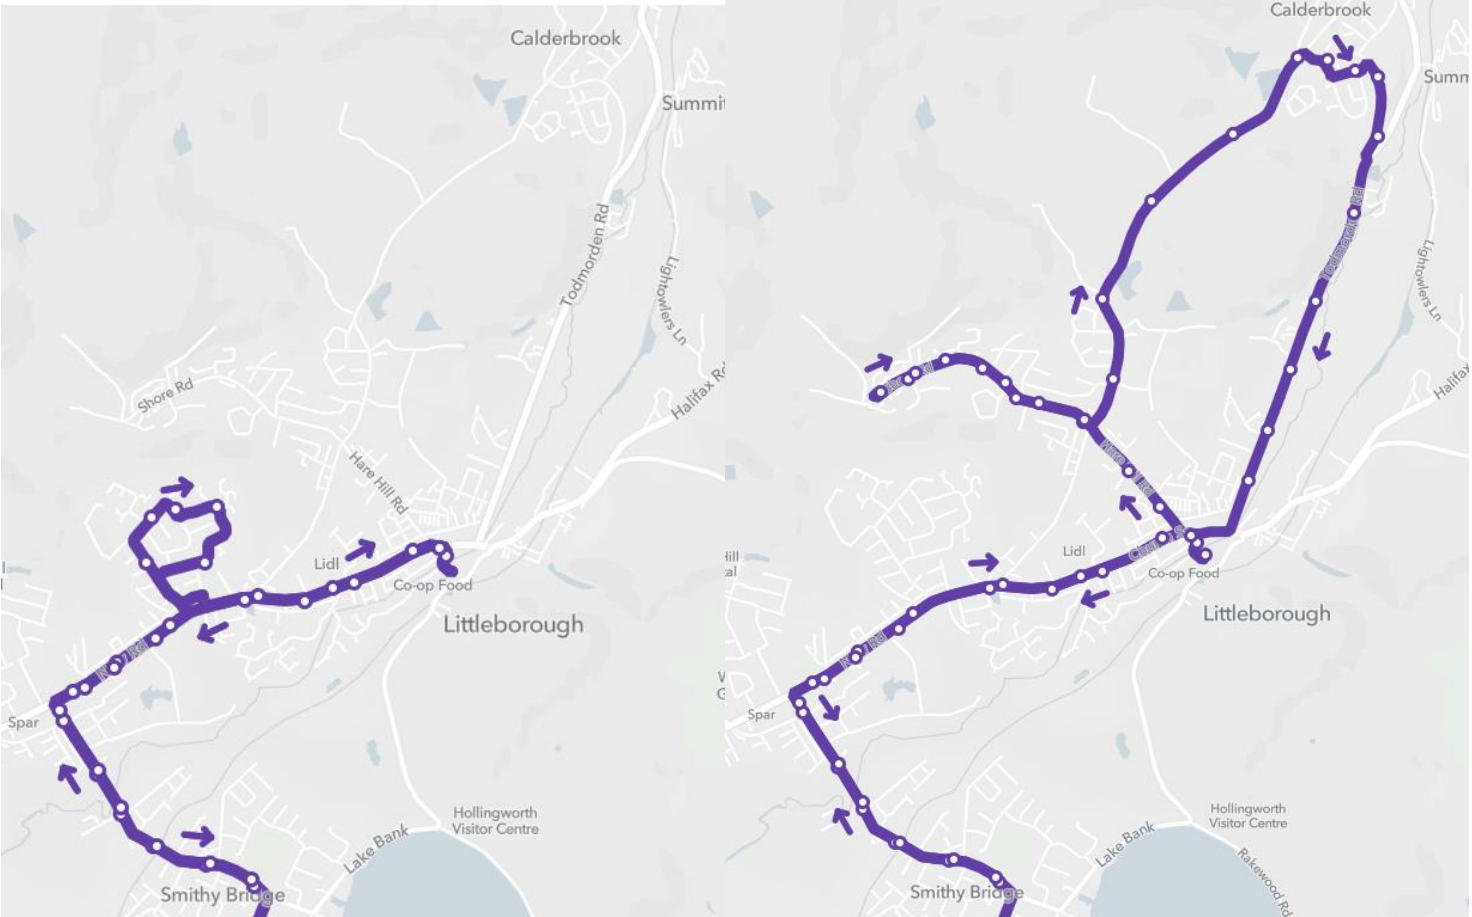

Dist	Service, route and operator	TfGM officer comments and recommendations
		<div data-bbox="678 272 1435 464"><ul style="list-style-type: none"><li> Section not currently served by first AM journey towards NMGH</li><li> Section which will no longer be served by first AM journey from April</li><li> Section still served by first AM journey from April onwards</li></ul></div>  <p>The map shows the tram route from Hathershaw in the north to Ashton-under-Lyne in the south. The route is color-coded as follows:</p> <ul style="list-style-type: none"><li><b>Orange (Not served):</b> The section from Hathershaw, Hollins, Hollinwood, and Failsworth to the northern part of Newton Heath and Moston.</li><li><b>Yellow (Not served from April):</b> The section from the northern part of Newton Heath and Moston, through Monsall, Newton Heath, Brookdale Park, and Fairsley to the southern part of Newton Heath and Moston.</li><li><b>Green (Served from April):</b> The section from the southern part of Newton Heath and Moston, through Monsall, Collyhurst, Cheetham, Cheetham Hill, and Crumpsall to the northern part of Crumpsall.</li></ul> <p>Key locations and roads along the route include: Hathershaw, Hollins, Hollinwood, Failsworth, Newton Heath and Moston, Monsall, Newton Heath, Brookdale Park, Fairsley, Collyhurst, Cheetham, Cheetham Hill, and Crumpsall. Major roads shown include Hathershaw Lane, Hollins Road, Hollinwood Road, Failsworth Road, Newton Heath Road, Monsall Road, Collyhurst Road, Cheetham Hill Road, and Crumpsall Road. The route ends at Ashton-under-Lyne, with connections to Manchester, Huddersfield, and Wakefield.</p>

Dist	Service, route and operator	TfGM officer comments and recommendations
RE	<p><b>458 (456)</b>  Rochdale – Wardle –  Littleborough –  Stansfield  <i>Transdev Rosso</i></p>	<p>Service 458 currently operates every 30 minutes Monday to Saturday daytime between Rochdale and Wardle on a commercial basis, with the extension through to Stansfield being operated under tender, also every 30 minutes. Evening and Sunday services run hourly between Rochdale and Littleborough on a tendered basis.</p> <p>Due to increased traffic volumes across Rochdale, services are significantly unreliable and therefore service revisions are required to maintain a reliable and punctual service within the resources that are available.</p> <p>It is proposed that the service between Littleborough and Shore/Stansfield is served by services 455/457 which will be co-ordinated to run a 30 minute service across the daytime. The journey time on the 455 between Rochdale and Shore is identical to the current 458.</p> <p>Alternate journeys between Rochdale and Littleborough will operate between Dearnley and Littleborough via Stubley, returning via Hollingworth Lake and Smithy Bridge, with buses running hourly each way round the loop Monday to Saturday daytime (clockwise as 456, counter-clockwise as 458). Evening and Sunday journeys will run as per current operation. This restores the longstanding provision which was previously in place and connectivity from Wardle to/from Littleborough Medical Centre and Lidl.</p> <p>There are no financial implications arising from this proposal.</p> <p>The following maps detail the existing 458 route and the new 456/458 route.</p>

Dist	Service, route and operator	TfGM officer comments and recommendations
		 <p><b>Members are asked to approve this recommendation which would be effective from 16<sup>th</sup> April 2023.</b></p>

RE	<p><b>R5 (455)</b>  Rochdale – Milnrow  – Littleborough  <i>Transdev Rosso</i></p>	<p>This service currently operates every 60 minutes Monday to Saturday daytime.</p> <p>Due to increased traffic volumes across Rochdale, services are significantly unreliable and therefore service revisions are required to maintain a reliable and punctual service within the resources that are available.</p> <p>It is proposed to operate to extend this service from Littleborough to serve Shore and Stansfield, replacing service 458 at these points. The service will be removed from Stubbley, which will be covered by the 456/458 to allow all areas to maintain their current journey times into/from Rochdale town centre.</p> <p>To allow co-ordination with service 457, the off peak timetable will be retimed to run up to 23 minutes earlier, with further retiming's across the peak timetable to maintain punctuality.</p> <p>As buses used will be part of the Lake Line branding, then the service will be renumbered to 455.</p> <p>There are no financial implications arising from this proposal.</p> <p>Current R5 and proposed 455 route shown below:</p>

		<p data-bbox="660 256 1787 288">New route of B3 at Elmsfield and Norden, current R2 route not served shown in brown.</p>  <p data-bbox="660 1286 2040 1318"><b>Members are asked to approve this recommendation which would be effective from 16<sup>th</sup> April 2023.</b></p>

Dist	Service, route and operator	TfGM officer comments and recommendations
BY RE	<p><b>B4</b> Bury – Fern Grove – Heywood – Hopwood <i>Transdev Rosso</i></p>	<p>This service currently operates every 60 minutes Monday to Saturday daytime between Bury, Fern Grove, Fairfield Hospital, Heywood and Hopwood. Evening and Sunday services run 2-hourly between Bury and Heywood centre only.</p> <p>Due to increased traffic volumes across Bury and Rochdale, services are significantly unreliable and therefore service revisions are required to maintain a reliable and punctual service within the resources that are available.</p> <p>It is proposed to amend service B4 to operate via the current R2 route via Heap Bridge instead of via Fern Grove and Fairfield Hospital then continue via the Hopwood loop.</p> <p>The existing route via Fern Grove and Fairfield Hospital, including the evening and Sunday service) would be operated by the B3 service.</p> <p>In Heywood, buses will run via Market Place, Church Street, Rochdale Road, Aspinall Street, instead of Queens Park Road, Starkey Street and Buckley Street, as this is now served by service B3. Also, between Cowburn Street and Heywood, Market Place buses will run via Schofield Street, Mount Street, King Street, Wilton Grove, Wolsey Street, Coomassie Street, Egerton Street and Hind Hill Street to improve access to service in South Heywood.</p> <p>Buses will run hourly Monday to Saturday daytime in line with the current provision on the relevant sections.</p> <p>This service will also replace school bus service 768, following the proposed B4 route and therefore the school time gaps will be removed.</p> <p>All journeys can continue to be made, except those passenger journeys which cross Heywood centre to travel to local destinations, i.e., Hopwood to Fairfield Hospital, Topping Fold and Fern Grove. In the 8 week period 2 October – 26 November 10312 passengers travelled on B4 journeys that served Hopwood of which 721 were passengers originating in the Hopwood loop. If it is assumed that all originating passengers also returned, then 1440 (14% of total) <u>might</u> be affected, however it is not possible to be more exact in the absence of graduated fares.</p> <p>There are no financial implications arising from this proposal.</p>

		<p>New route is proposed to be:</p>  <p>Members are asked to approve this recommendation which would be effective from 16th April 2023.</p>

## **GREATER MANCHESTER TRANSPORT COMMITTEE**

Date: Friday 17<sup>th</sup> February 2023  
Subject: Bus Network Stabilisation  
Report of: Stephen Rhodes, Director of Bus, TfGM

---

### **Purpose of Report**

To inform Members of the approach which TfGM is taking to stabilise the network in the light of on-going uncertainty around Government recovery funding and in advance of franchising.

### **Recommendations:**

Members are asked to:

1. Note the approach with TfGM has taken to stabilise the Greater Manchester bus network since October 2022 and in respect of commercial service registrations submitted by Diamond Bus and Vision Bus due to take effect 16<sup>th</sup> April 2023, as reported to the Bus Services Sub-Committee on 20<sup>th</sup> January 2023; and
2. Delegate authority to the Chief Executive GMCA and TfGM, in consultation with the GMTCC Chair, to agree replacement bus services to commence on 16th April 2023.

### **Contact Officers**

Stephen Rhodes                      Director of Bus, TfGM  
[stephen.rhodes@tfgm.com](mailto:stephen.rhodes@tfgm.com)

Alison Chew                              Deputy Director of Bus, TfGM  
[alison.chew@tfgm.com](mailto:alison.chew@tfgm.com)

## **Equalities Implications**

An Equality Impact Assessment (EqIA) has been undertaken to identify potential implications of the proposed network changes being implemented by bus operators on various protected groups and the extent to which TfGM's proposed response will mitigate these. This EqIA identified a number of potential negative impacts on groups with protected characteristics should services need to be withdrawn or significantly reduced as a result of these proposals – including access to healthcare facilities for the disabled and elderly; access to education for young people; and a disproportionate impact on BAME and low-income households who are more reliant on bus services.

Given that TfGM is seeking to intervene and replace withdrawn services, the impact will be marginal in the short to medium term.

## **Climate Change Impact Assessment and Mitigation Measures**

Does this report relate to a major strategic decision, as set out in the GMCA Constitution?

No

## **Exemption from call in**

Are there any aspects in this report which means it should be considered to be exempt from call in by the relevant Scrutiny Committee on the grounds of urgency? No

## **GM Transport Committee**

N/A

## **Overview and Scrutiny Committee**

N/A

## **1. INTRODUCTION/BACKGROUND**

- 1.1. This report provides an update on the approach TfGM has taken to stabilise the Greater Manchester bus network since October 2022 and seeks approval for authority to be delegated to the Chief Executive TfGM and GMCA, in consultation with the GMTCC Chair, to agree replacement bus services to commence on 16<sup>th</sup> April 2023.

## **2. OVERVIEW**

- 2.1. As reported to the meeting of this Committee in August 2022, TfGM and bus operators have previously been through a network review exercise to identify a financially sustainable network that would be able to operate after the (at that time) expected end of COVID related recovery funding in October 2022.
- 2.2. This work resulted in a number of contracts being let to operators in October 2022 both to maintain services that were withdrawn having previously been commercially run, and to restore frequencies where a frequency reduction was proposed, up to a maximum of four buses per hour.
- 2.3. In parallel, the procurement exercise for services in Tranche 1 of the GM bus franchising scheme was being carried out, culminating in the announcement of the successful bidders on 23 December 2022.

## **3. IMPACT OF SERVICE WITHDRAWALS/REDUCTIONS**

- 3.1. As previously reported to the Bus Sub-Committee, Diamond Bus and Vision Bus have advised TfGM of a number of changes planned for April 2023, with Diamond Bus North West registering the withdrawal of all commercial journeys on six routes, and frequency reductions on five other routes. In addition, Vision Bus have de-registered all remaining commercial journeys on one further service. All changes are due to take effect on 16th April 2023.
- 3.2. These are substantial changes which would have a significant impact on both the stability of the bus network and the communities they serve. This would undermine customer confidence in bus services at a critically important time in terms of the period leading up to franchising and the cost of living crisis, as well as undermining the revenue base that TfGM will inherit.

- 3.3. Details of the affected services were reported to the meeting of the GMTC Bus Services Sub-Committee (BSSC) on 20th January; and further information relating to the discussion that took place at BSSC is included in the Minutes of that meeting.

#### **4. PROPOSED INTERVENTION BY TFGM**

- 4.1. In response, TfGM is proposing to intervene in line with the same network stabilisation principles that were applied in Summer/Autumn 2022.
- 4.2. No action is being taken in respect of the frequency reductions, as even with the reductions, the services affected will still operate to the minimum (4 services per hour) frequencies set when the network stabilisation review was carried out.
- 4.3. Replacement services have been sought by the issue of tenders for the services that are to be withdrawn (including in one case where the replacement service would be restored at every 15 minutes rather the current 12 minute service, for consistency) for a 5 month period from 16th April 2023 to 23rd September 2023 to the start of Tranche 1. Bids were received on 8th February.
- 4.4. However, as the procurement process has only just been concluded and the next meeting of the BSSC is not due to take place until 10th March, a request is being made for authority to be delegated to the GMCA/TfGM Chief Executive, in consultation with the GMTC Chair, to approve the associated service changes on this occasion. This would enable the replacement services to be registered ahead of the deadline of 3rd March and allow operators to make the necessary preparations ahead of starting contracted operations on 16th April.

#### **5. FINANCIAL IMPACT AND FUNDING AVAILABILITY**

- 5.1. Following the procurement process, the estimated costs (taking account of revenue) for retaining the withdrawn services and frequencies as set out above is approximately £2.5m for the period 16 April to 23 September 2023. This is affordable within the budgets that were approved by the GMCA on 10th February 2023.

## **6. RISKS**

- 6.1. Given the current uncertainty around future Government support beyond March 2023; continuing high levels of cost inflation and uncertainty around future passenger numbers; as well as driver recruitment and retention challenges, there is a risk that operators may decide to register further changes to the network. TfGM's ability to continue to intervene may, as a result of the factors set out above, become increasingly constrained by both budgetary and operational issues.

## **7. RECOMMENDATIONS**

- 7.1 Recommendations are set out at the front of this report.

**Stephen Rhodes**

**Director of Bus**

**GREATER MANCHESTER TRANSPORT COMMITTEE**  
**BUS SERVICES SUB COMMITTEE**

GM Transport Committee	Overview & Scrutiny Committee	
N/A	N/A	

# 1 INTRODUCTION

- 1.1 Greater Manchester has an extensive bus network covering approximately 49.0 million miles between January 2022 and December 2022 (a decrease of 8% compared with the financial year of 2021/2022) and supporting an annual ridership of 145.8 million passengers (an increase of 8.9 million passengers compared with the financial year of 2021/22). The network (551 services) is provided on both a commercial and subsidised basis by 39 operators (as of December 2022).
- 1.2 Transport for Greater Manchester (TfGM), financially supports and manages the subsidised bus network on behalf of the Greater Manchester Combined Authority (GMCA). The funding level for the subsidised network (22.6% of the overall network mileage), supports areas of the network which are not deemed commercially viable by operators, but are considered socially necessary, and also delivers an extensive network of school bus services.
- 1.3 Annual ridership on the subsidised bus network between January 2022 and December 2022 was 22.2 million, an increase of 6.0 million compared with the financial year of 2021/2022. This includes ridership on additional supported subsidised services to support the stabilisation of the network from October 2022 onwards.
- 1.4 Bus service provision represents a vital element of the Greater Manchester public transport network. Currently, three out of every four public transport journeys in Greater Manchester are undertaken by bus services. It is therefore essential that the performance of the bus network is closely monitored and understood, ensuring that not only is the quality of provision and customer journey experience maintained and enhanced, but the subsidised services budget is effectively and efficiently deployed.
- 1.5 Transport Focus surveys have consistently indicated that key customer priorities are value for money, driver behaviour, punctuality/reliability, and journey time.

- 1.6 Patronage on the bus network overall is currently an estimated 86% of pre-Covid levels and is around 15% up on the equivalent period last year. An evaluation<sup>1</sup> of the first three months of Greater Manchester's £2 / £5 Bus Fare Offer (September – December 2022) shows that this initiative contributed to an increase of bus patronage of 10% over this period. Whilst it is difficult to directly attribute the proportion of this increase which results from the fares offer and what is attributable to the ongoing recovery of travel markets post pandemic, initial estimates are that approximately 5% is due to the fares offer, equating to approximately 1.5 million additional journeys in just three months. This is particularly encouraging in respect of promoting changes in travel behaviour and encouraging mode shift from car.
- 1.7 This report covers the period of July 2022 – December 2022 which includes the ongoing recovery following the impact of the pandemic, bus and rail industrial strike actions, and a national driver shortage affecting the industry. In addition, TfGM introduced the standard fare initiative from September 2022 and received the commercial portion of the Bus Revenue Grant (BRG) from government to support network stabilisation and respond to proposed reductions from commercial operators.

## **2 OPERATIONAL PERFORMANCE**

- 2.1 This section of the report presents network wide bus operational performance statistics for the Greater Manchester region, extracted from the ITO World Transit Hub (Discover) to formally report punctuality, reliability and regularity measures from October 2022. This section of the report will cover the period of October 2022 – December 2022.
- 2.2 The ITO World Transit Hub uses automated vehicle location (AVL) and timetable (TransXChange) information, with a matching process taking place between these 2 sets of data. ITO World Transit Hub covers the entire network and services, including school services, 24hrs a day, 7 days a week.

---

<sup>1</sup> <https://tfgm.com/data-analytics-and-insight/surveys-and-research/low-bus-fares>

- 2.3 TfGM's in-house Punctuality Reliability Monitoring System (PRMS) ended on the 30<sup>th</sup> September 2022. PRMS was based on manual observations on a small sample of the network and services during observational periods.
- 2.4 Figure 1 provides a comparison of the months October 2022 – December 2022 using the ITO World Transit Hub system of the key bus services operational performance indicators, split between those registered to adhere to a timetable with specific departure times (scheduled services) and those registered to operate six buses an hour or more, with the associated timetable stating the service frequency (frequent services).
- 2.5 Using the same core data set, a different methodology was used to calculate reliability and overall punctuality, compared with start and intermediate (mid-point) punctuality. Reliability and overall punctuality include frequent service intervals provided by ITO World Transit Hub (Discover). Start and intermediate (mid-point) punctuality excludes frequent service intervals and is generated 'in house' within TfGM, as these measures are currently not available via ITO World Transit Hub. Start and intermediate (mid-point) punctuality will be provided by ITO World Transit Hub in the forthcoming months.

**Figure 1: Bus Service Operational Performance**

Indicator	Standard	October 2022		November 2022		December 2022	
		Recorded Departures/ Observations	%	Recorded Departures/ Observations	%	Recorded Departures/ Observations	%
<b>Scheduled Services</b>							
Reliability*	97.00%	1,975,099	80.68%	1,505,612	80.55%	1,846,248	80.86%
Overall Punctuality*	80.00%	1,975,099	67.48%	1,505,612	64.46%	1,846,248	66.65%
Start Point Punctuality**	90.00%	421,975	75.94%	330,612	73.25%	389,845	74.73%
Intermediate (Mid-Point) Punctuality**	70.00%	1,290,601	59.73%	1,021,009	57.41%	1,219,375	58.22%
<b>Frequent Services</b>							
Regularity	97.00%	266,414	94.25%	225,162	92.85%	245,381	94.44%

**Note: The ITO World Transit Hub was unavailable for 7 days between the 16<sup>th</sup> – 22<sup>nd</sup> November 2022, due to a technical issue.**

**\* Includes frequent service intervals**

**\*\* Excludes frequent service intervals**

### ***Scheduled Service Performance***

- 2.6 The reliability of scheduled services (Figure 1) at the network level was below the Traffic Commissioner’s minimum standard of 97.00% throughout the period of October 2022 – December 2022, with performance just above 80.00%.
- 2.6.1 Reliability reporting is based on scheduled/timetabled departures versus recorded/actual departures, using GPS/AVL information which can be limited by ticket machine hardware and network reception/coverage.
- 2.7 Start-point punctuality of scheduled services is an area where TfGM has sought more action on the part of the operator, as it is incumbent on them to provide reasonable recovery time and develop contingency plans to enable journeys to start punctually. Traffic congestion in the Regional Centre has historically hampered the

increased recovery times put in place by some operators, particularly given the limited space available for vehicle layover.

- 2.8 The start-point punctuality of scheduled services (Figure 1) at the network level was below the Traffic Commissioner's minimum standard of 90.00% throughout the period of October 2022 – December 2022, with average performance of below 75.00% over the 3 months.
- 2.9 The mid-point punctuality of scheduled services (Figure 1) at the network level was below the Traffic Commissioner's minimum standard of 70.00% throughout the period of October 2022 – December 2022, with performance below 60.00%
- 2.10 Overall punctuality for scheduled services (Figure 1) at the network level was below the Traffic Commissioner's minimum standard of 80.00% throughout the period of October 2022 – December 2022, with performance below 70.00%.
- 2.11 Performance measures, as shown by the key bus services operational performance indicators, are lower compared with the data previously reported by the PRMS system, as the ITO World Transit Hub is providing a more accurate and fuller comprehensive coverage of the network. In addition, there continues to be a general driver shortage impacting the bus industry and the ability for operators to provide services as planned, as well as increased congestion and roadworks taking place on the network, affecting performance.
- 2.12 For Bus Franchising, an AVL system is being procured to provide the operational performance indicators.

### ***Frequent Service Performance***

- 2.13 In the case of frequent services, the key issue for passengers is not the adherence to a specific set of timetabled departures, but the regularity of the service compared to their expectations. Performance is measured at intermediate timing points of a journey therefore this is another area where internal targets acknowledge there may

be a need for highways management interventions to achieve the minimum standards.

- 2.14 The mid-point regularity of frequent services (Figure 1) at the network level was below the Traffic Commissioner's minimum standard of 97.00% throughout the period of October 2022 – December 2022, with performance below 95.00%.

### ***Fleet Profile***

- 2.15 Since 1992, European Union (EU) regulations have been imposed on new engines, with the aim of improving air quality - meaning an engine must meet certain Euro emissions standard when it is made. The aim of Euro emissions standards is to reduce the levels of harmful exhaust emissions, chiefly:
- Nitrogen oxides
  - Carbon monoxide
  - Hydrocarbons
  - Particulate matter
- 2.16 The first Euro emission standard (Euro 1) was introduced in 1992 and the latest Euro 6 emission standard in 2015. In November 2022, the EU published their proposal detailing the new Euro 7 emission standards with the aim to ensure cars, vans, lorries and buses are much cleaner, in real driving conditions that better reflect the situation in cities where air pollution problems are largest, and for a much longer period than under current rules.
- 2.17 A hybrid engine combines a petrol or diesel engine with an electric motor powered by a battery. The battery is charged by capturing energy from braking and, under certain conditions, from the engine.

2.18 Figure 2 highlights the observed profile of the network bus fleet, in terms of vehicle age and the engine emissions standard. The vehicle fleet profile is based upon the fleet data collated as part of the Clean Air programme.

**Figure 2: Vehicle Fleet Profile**

Vehicle Type	31/03/2021	31/03/2022	30/09/2022	Direction Change 2022
Euro VI (Incl Electric vehicles)	36.53%	71.71%	88.84%	Improving
Euro IV+ (E4, E5, E6 & Electric vehicles)	94.51%	98.99%	99.63%	Improving
Hybrid Diesel	13.45%	11.85%	12.19%	Improving
Electric Only	1.83%	1.53%	1.63%	Improving
Vehicle Age (Average)	9.2 years	9.4 years	10.1 years	Worsening

2.19 At the end of September 2022, 99.63% of vehicle engines were of an emission standard of 4 and above and 88.84% of these vehicle engines were of an emission standard of 6 and/or an electric vehicle, an increase compared with the end of March 2022, and a significant increase since March 2021, with the aim of improving air quality. The usage of hybrid diesel engines has improved slightly between the 31/03/2022 and 30/09/2022 from 11.85% to 12.19%.

2.20 The average age of the vehicle fleet has increased between March 2022 and September 2022, with the average fleet age at 10.1 years.

2.21 Greater Manchester's Clean Air Plan is under review with Government. However, as the emissions reduction for a bus changing from a non-compliant vehicle to a Euro VI model is substantial the Clean Air Funding for bus replacement and retrofit

for GM registered bus services remains open to operators. To end January 2023, 877 buses have been retrofitted and 69 vehicles have been replaced, these upgrades mean that 89% of the bus fleet serving Greater Manchester is now compliant with clean air standards. The fleet profile will continue to improve as Bus Franchising is implemented, including the procurement of 100 new zero emission electric buses for Bus Franchising Tranches 1 and 2.

## **SUBSIDISED BUS NETWORK PERFORMANCE**

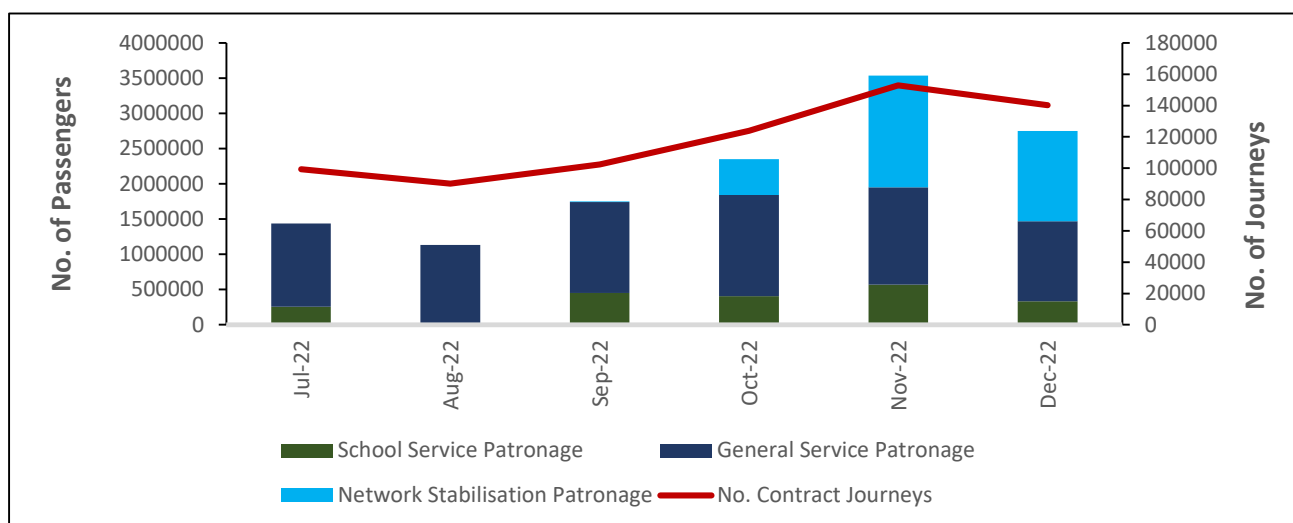

### ***Overview***

- 2.22 Over the 6-month period July 2022 – December 2022, the total estimated bus network mileage within Greater Manchester was 23,875,742 miles. Commercial services provided 77% (18,404,370 miles) of the total estimated bus network mileage and TfGM subsidised services the remaining 23% (5,471,372 miles), supporting socially necessary and school bus services.
- 2.23 In December 2022, there were 496 subsidised service contracts in operation, compared with 460 in December 2021. In December 2022, there were 265 school subsidised service contracts and 231 general (normal) subsidised service contracts, of which 63 were network stabilisation contracts, provided by a total of 21 operators. The largest 3 operators of subsidised service contracts in December 2022 were Stagecoach Manchester (137 contracts/28% market share), Vision Bus Ltd (63 contracts/13% market share) and First Manchester (41 contracts/8% market share).
- 2.24 In December 2022, subsidised bus mileage was estimated to be 980,769 miles, compared with 809,230 miles in December 2021, an increase of 21% due to the increase of subsidised supported contracts, to support network stabilisation and respond to proposed reductions from commercial operators. The largest 3 operators of subsidised bus mileage in December 2022 were Stagecoach Manchester (339,329 miles/35% mileage share), Diamond Bus (150,797 miles/15% mileage share) and Vision Bus Ltd (109,870 miles/11% mileage share).

## Patronage

2.25 Patronage information is collated and analysed each month to identify trends, increase our understanding of passenger demand across the subsidised bus network and facilitate contract management. Figure 3 presents the monthly patronage profile on subsidised bus services, along with the number of contracted journeys for the July 2022 – December 2022 period.

**Figure 3: Subsidised Bus Service Patronage (July 2022 – December 2022)**

2.26 Overall subsidised service patronage, including the school, general and network stabilisation supported services for the period of July 2022 – December 2022 was 12,962,584 passengers, on 708,766 journeys, with an average of 18 passengers per journey.

2.27 Excluding the network stabilisation patronage, subsidised service patronage including the school and general network for the period of July 2022 – December 2022 was 9,572,070 passengers on 586,183 journeys, with an average of 16 passengers per journey. The level of patronage has increased by 17% (1,366,316 passengers) compared with the patronage level recorded between July 2021 – December 2021 of 8,205,754 passengers and reflects the continued recovery in bus travel following the COVID-19 pandemic. The number of journeys has increased by

3% compared with the number of journeys recorded between July 2021 – December 2021 of 570,834 journeys. Average passengers per journey between July 2021 – December 2021 was 14.

- 2.28 General subsidised service patronage for July 2022 – December 2022 was 7,554,375. The level of patronage has increased by 18% (1,350,160 passengers) compared with the patronage level recorded between July 2021 – December 2021 of 6,204,215 passengers.
- 2.29 Between July 2022 – December 2022, the main 3 operators carrying general services subsidised patronage were Stagecoach Manchester (50.04% and 3,779,925 passengers), Go North West (9.06% and 684,725 passengers) and Rosso (8.51% and 642,985 passengers).
- 2.30 Schools subsidised service patronage for July 2022 – December 2022 was 2,017,695. This represents an increase of 1% (16,156 passengers) compared with 2,001,539 passengers between July 2021 – December 2021.
- 2.31 Between July 2022 – December 2022, the main 3 operators carrying schools subsidised patronage were: Stagecoach Manchester (25.65% and 517,591 passengers), Vision Bus (13.56% and 273,524 passengers) and First Manchester (12.11% and 244,394 passengers).
- 2.32 TfGM was provided the commercial portion of the Bus Revenue Grant (BRG) from the Department for Transport (DfT), from October 2022 onwards, to support network stabilisation and respond to proposed reductions from commercial operators. Patronage on services supported via network stabilisation between October 2022 – December 2022 was 3,390,514.
- 2.33 Between October 2022 – December 2022, the main 3 operators carrying network stabilisation service patronage were Stagecoach Manchester (47.87% and 1,623,101 passengers), Diamond Bus (21.30% and 722,229 passengers) and First Manchester (19.70% and 667,971 passengers).

- 2.34 Subsidised service patronage is recovering. Patronage, excluding network stabilisation patronage for the rolling 12-month period of January 2022 – December 2022 was 18,844,346 passengers and remains 4% lower compared with the 2019/2020 financial year (19,675,699 passengers).

### ***Contract Cost***

- 2.35 Contract payments for the subsidised services totalled £18,237,542 for the period of July 2022 – December 2022. This is a 30% (£4,219,123) increase in the expenditure for contract payments compared with the period between July 2021 – December 2021 (£14,018,419). This is reflective of the increase in subsidised supported contracts, to support network stabilisation and respond to proposed reductions from commercial operators.
- 2.36 The cost per passenger for the period of July 2022 – December 2022 was £1.41, a decrease of 18% compared with the cost per passenger for the 6-month period between July 2021 – December 2021 of £1.71.

### ***Declared Lost Mileage***

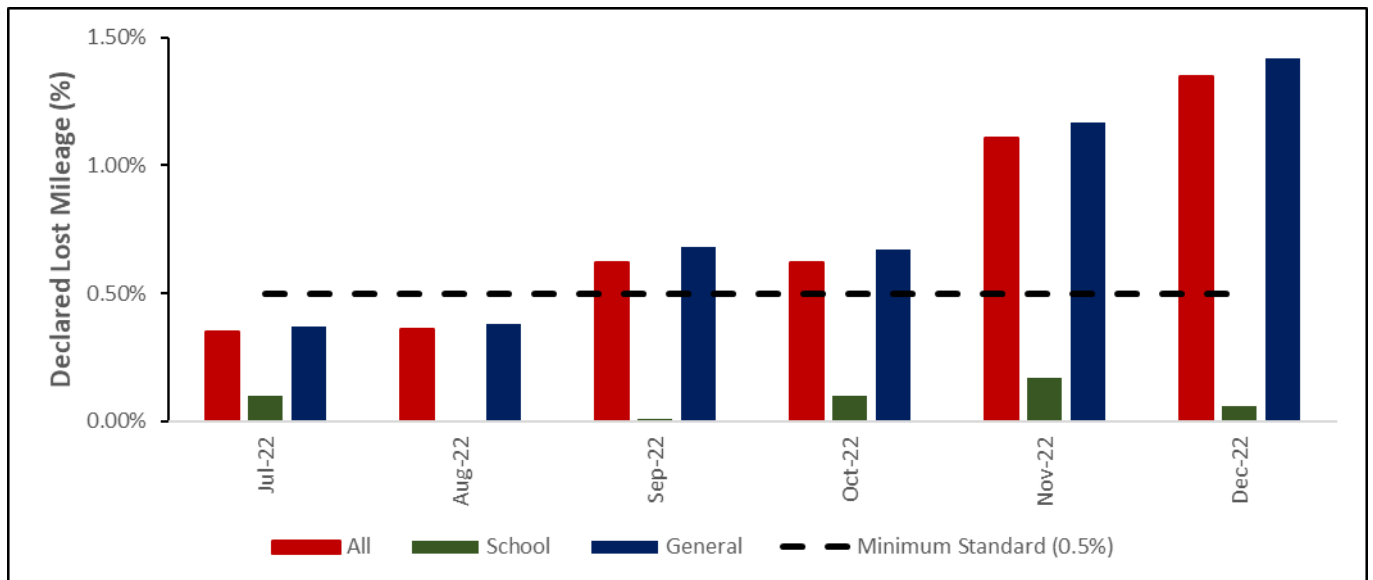

- 2.37 Operators are contractually obliged to declare any lost mileage that occurs on TfGM contracts each month and these declarations are subsequently verified through analysis of their electronic ticket machine data. The proportion of declared lost mileage incurred on the subsidised service network between July 2022 and December 2022, broken down by contract type is presented in Figure 4.
- 2.38 Between July 2022 and December 2022, the declared lost mileage for all subsidised services was 47,987 miles, which represented 0.81% of the subsidised scheduled mileage. The significant service delivery issues relating to the national driver shortage must be acknowledged as a significant impact in the period under review. This is an increase compared with the period between July 2021 and December 2021 declared lost mileage for all subsidised services of 41,216 miles, representing

0.88% of the subsidised scheduled mileage. Declared lost mileage is above the industry standard of 0.5%.

2.39 General subsidised declared lost mileage for the period between July 2022 and December 2022 was 47,671 miles, representing 0.86% of the general subsidised scheduled mileage. This is an increase compared with the period between July 2021 and December 2021 declared lost mileage for all subsidised services of 40,578 miles, representing 0.95% of the subsidised scheduled mileage. Declared lost mileage is above the industry standard of 0.5%.

2.40 Schools subsidised declared lost mileage for the period between July 2022 and December 2022 was 297 miles, representing 0.08% of the school subsidised scheduled mileage. This is a reduction compared with the period between July 2021 and December 2021 declared lost mileage for all subsidised services of 637 miles, representing 0.15% of the subsidised scheduled mileage. Declared lost mileage is below the industry standard of 0.5%.

**Figure 4: Declared Lost Mileage (July 2022 – December 2022)**

2.41 The main 3 reasons for declared lost mileage for all subsidised services as identified by operators during the period between July 2022 and December 2022 were: staff

shortage (44% affecting 21,287 miles), bus breakdowns (24% affecting 11,495 miles) and traffic congestion and enforcement (22% affecting 10,497 miles).

### **Operational Performance**

**Figure 5: Subsidised Bus Network Operational Performance**

Indicator	Standard	October 2022		November 2022		December 2022	
		Recorded Departures/ Observations	%	Recorded Departures/ Observations	%	Recorded Departures/ Observations	%
<i>Scheduled Services</i>							
Reliability*	97.00%	485,995	81.61%	519,241	81.60%	966,760	81.90%
Overall Punctuality*	80.00%	485,995	67.38%	519,241	64.63%	966,760	67.31%
Start Point Punctuality**	90.00%	275, 988	74.57%	191, 761	74.48%	301,612	74.37%
Intermediate (Mid-Point) Punctuality**	70.00%	1,218,612	59.06%	666, 112	58.36%	1,362,307	58.12%

**Note: The ITO World Transit Hub was unavailable for 7 days between the 16<sup>th</sup> – 22<sup>nd</sup> November 2022, due to a technical issue.**

**\* Based on subsidised individual trips/journeys**

**\*\*Based on subsidised services (full and partial services)**

2.42 This section of the report presents subsidised bus network operational performance statistics for the Greater Manchester region, extracted from the ITO World Transit Hub (Discover) to formally report punctuality and reliability measures from October 2022. This section of the report will cover the period of October 2022 – December 2022.

2.43 ITO World Transit Hub covers the subsidised network and services, including school services, 24hrs a day, 7 days a week.

2.44 Using the same core data set, a different methodology was used to calculate reliability and overall punctuality, compared with start and intermediate (mid-point) punctuality. Reliability and overall punctuality are based on subsidised trips/journeys

as defined by the ITO World Transit Hub (Discover). Start and intermediate (mid-point) punctuality are based on subsidised services (full and partially subsidised) and are generated 'in house' within TfGM. Start and intermediate (mid-point) punctuality will be provided by ITO World Transit Hub in the forthcoming months.

- 2.45 The reliability of subsidised scheduled services (Figure 5) was below the Traffic Commissioner's minimum standard of 97.00% throughout the period of October 2022 – December 2022, with performance just above 80.00%.
- 2.45.1 Reliability reporting is based on scheduled/timetabled departures versus recorded/actual departures, using GPS/AVL information which can be limited by ticket machine hardware and network reception/coverage.
- 2.46 The start-point punctuality of subsidised scheduled services (Figure 5) was below the Traffic Commissioner's minimum standard of 90.00% throughout the period of October 2022 – December 2022, with performance just below 75.00%
- 2.47 The mid-point punctuality of subsidised scheduled services (Figure 5) was below the Traffic Commissioner's minimum standard of 70.00% throughout the period of October 2022 – December 2022, with performance just below 60.00%
- 2.48 Overall punctuality for subsidised scheduled services (Figure 5) was below the Traffic Commissioner's minimum standard of 80.00% throughout the period of October 2022 – December 2022, with performance below 70.00%.
- 2.49 As with the overall network, operational performance indicators are lower compared with the data previously reported by the PRMS system, as the ITO World Transit Hub is providing a more accurate and fuller comprehensive coverage of the network. In addition, there continues to be a general driver shortage impacting the bus industry and the ability for operators to provide services as planned, as well as increased congestion and roadworks taking place on the network, affecting performance.

### ***Customer Comments***

- 2.50 Customer comments/complaints are received via the Customer Experience Platform (CPX) at TfGM, for commercial, subsidised and Local Link services. The level of customer comments/complaints received during the period of July 2022 – December 2022 for commercial, subsidised and Local Link services is presented in Figure 6.
- 2.51 There were 85 subsidised bus service comments/complaints received by TfGM during the period of July 2022 to December 2022, which were within the operators control and their responsibility. This is the same of level of comments/complaints received compared with the 6-month period between July 2021 – December 2021 of 85, which were also deemed within the operators control and their responsibility.
- 2.52 The main 3 reasons of customer comments/complaints received during the period of July 2022 – December 2022 were service failure (25% / 21 comments/complaints), punctuality/reliability (24% / 20 comments/complaints) and driver behaviour (13% / 11 comments/complaints).
- 2.53 There were 54 Local Link comments/complaints received by TfGM during the period of July 2022 to December 2022. This is a reduction of 26% in the number of comments/complaints received, compared with the 6-month period between July 2021 – December 2021 of 73.
- 2.54 The main 3 reasons of customer comments/complaints received during the period of July 2022 – December 2022 were service failure (50% / 27 comments/complaints), booking error (19% / 10 comments/complaints) and other problem (15% / 8 comments/complaints). Examples of other problem classification areas include lack of wheelchair access, lack of service coverage in specific areas and unhappy with vehicle size.

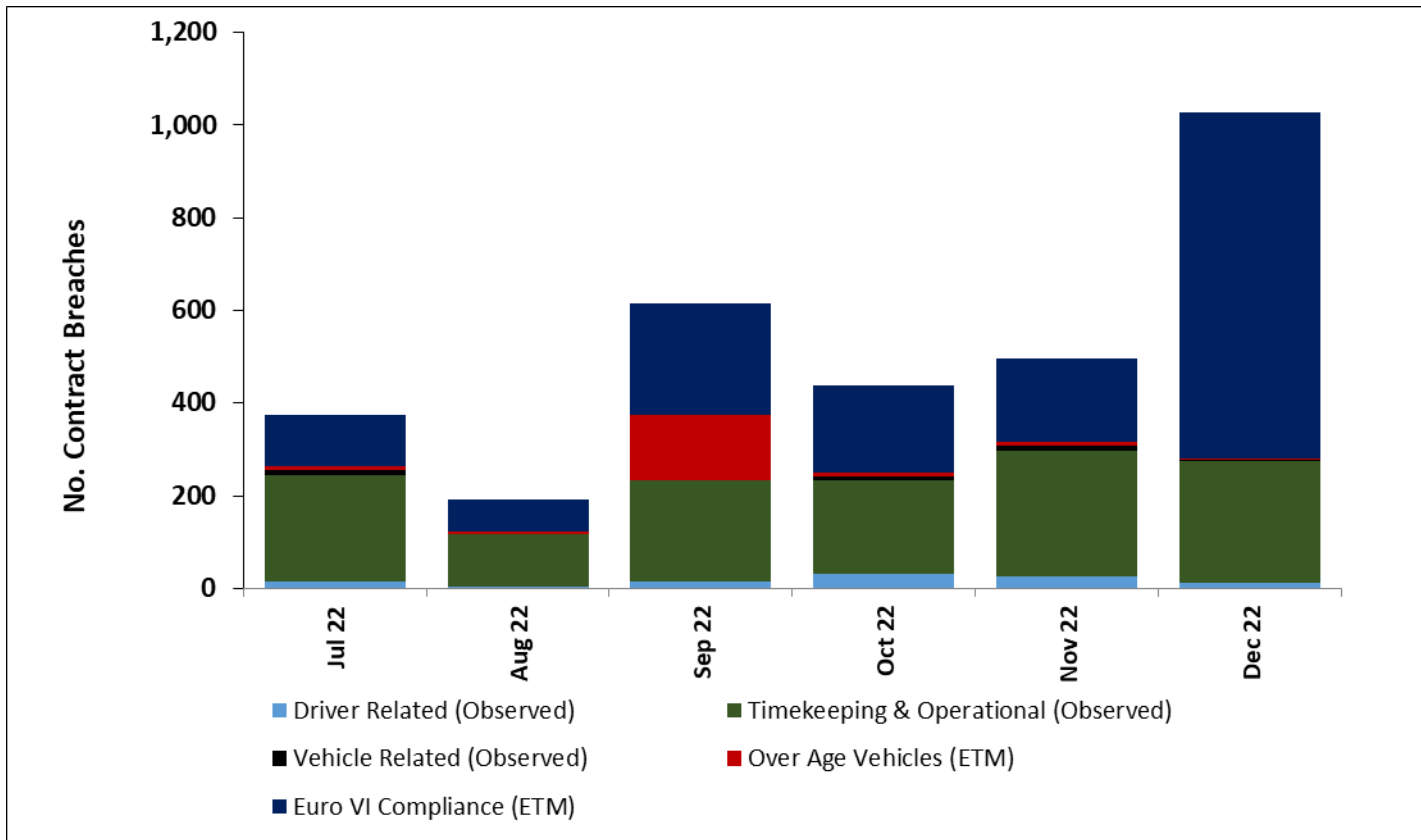

**Figure 6: Customer complaints/comments (July 2022 – December 2022)**

### **Contract Breaches**

- 2.55 Contract breaches are reported failures to deliver a subsidised service in accordance with the contract specification and result in a financial deduction being made from the operator’s monthly payment. The level of financial penalty is dependent on the number and composition of breach types. Figure 7 shows the monthly number of contract breaches by type and source for the period of July 2022 – December 2022.
- 2.56 49% of contract breaches between July 2022 and December 2022 were attributed to Euro VI non-compliant breaches (1,535), 41% were due to timekeeping and operational breaches (1,297), 6% were attributed to over age vehicles (174), 3% were driver related (103) and 1% were vehicle related (34).
- 2.57 Euro VI compliance monitoring was introduced for all new tendered contracts from in September 2021, as part of the Clean Air Programme.

**Figure 7: Contract Breaches (July 2022 – December 2022)**

**Vehicle Profile**

2.58 In December 2022, the average age of the vehicle fleet used on the subsidised network was 9.37 years. When compared by contract type, the average age of the vehicle fleet used on general services was 9.42 years and on the school network was 9.83 years. The average age of the vehicle fleet overall and on both the general and schools network remains below TfGM’s tendered age limit of 15 years.

**Deductions from Operator Payments**

2.59 Contract deductions are a financial deduction made from the operator’s monthly payment. Declared lost mileage and contract breaches, including employing overage vehicles on the network, contribute towards the financial deductions made.

- 2.60 Contract deductions for the subsidised services totalled £189,691 for the period of July 2022 – December 2022. This is a 37% (£51,688) increase in the contract deductions made in the period between July 2021 – December 2021 (£138,003)
- 2.61 Contract deductions represented 1.04% of the total contract payments paid (£18,237,542) in the period of July 2022 – December 2022, compared with 0.98% of the total contract payments paid (£14,018,419) during the 6-month period between July 2021 – December 2021.

### **3 RECOMMENDATIONS**

- 3.1 Recommendations are set out at the front of this report

**Stephen Rhodes**  
**Director of Bus**

## Greater Manchester Transport Committee – Work Programme

### March 2023

The table below suggests the Committee's work programme for March 2023-March 2024. Members are invited to further develop, review and agree topics which they would like to consider. The work programme will be reviewed and updated regularly to ensure that the Committee's work remains current.

The key functions of the Committee are –

- **Accountability:** active and regular monitoring of the performance of the transport network, including the Key Route Network, the operation of the GM Road Activities Permit Scheme, road safety activities, etc as well as all public transport modes. This role will include holding service operators, TfGM, highway authorities and transport infrastructure providers to public account, and to recommend appropriate action as appropriate;
- **Implementation:** oversee the delivery of agreed Local Transport Plan commitments. This includes the active oversight of the transport capital programme, and decisions over supported bus services network to be made within the context of policy and budgets set by the Mayor and the GMCA as appropriate; and
- **Policy Development:** undertake policy development on specific issues, as may be directed by the Mayor and / or the GMCA.

March 2023

MEETING	TOPIC	CONTACT OFFICER	PURPOSE	ALIGNMENT TO WHICH KEY FUNCTION OF THE COMMITTEE
Bus Services Sub Committee	Changes to the Bus Network and Review of Subsidised Bus Services Budget	Stephen Rhodes, TfGM	To note forthcoming changes to the bus network and to review and make decisions relating to supported bus services within the context of policy and budgets set by the Mayor and GMCA as appropriate.	Implementation
	Bus Performance Report	Stephen Rhodes, TfGM	To provide an overview of bus services since the last subcommittee meeting.	Accountability
	Update from Operators	All Operators	To inform the Committee of the latest challenges,	Accountability

<b>MEETING</b>	<b>TOPIC</b>	<b>CONTACT OFFICER</b>	<b>PURPOSE</b>	<b>ALIGNMENT TO WHICH KEY FUNCTION OF THE COMMITTEE</b>
			issues and achievements across the bus network.	
Metrolink & Rail Services Sub Committee	Metrolink Performance Report	Daniel Vaughan, TfGM	To review the performance of the Metrolink Network.	Accountability
Metrolink & Rail Services Sub Committee	Rail Performance Report	Simon Elliott, TfGM	To review performance of rail services in Greater Manchester.	Accountability
Metrolink & Rail Services Sub Committee	Update from Operators	All Operators	To inform the Committee of the latest challenges, issues and achievements across the bus network.	Accountability
Active Travel Sub Committee	Active Travel Programme	Richard Nickson, TfGM	To provide an update on the Active Travel Programme	Implementation and Accountability

<b>MEETING</b>	<b>TOPIC</b>	<b>CONTACT OFFICER</b>	<b>PURPOSE</b>	<b>ALIGNMENT TO WHICH KEY FUNCTION OF THE COMMITTEE</b>
Active Travel Sub Committee	Road Danger Reduction (Vision Zero)	Peter Boulton, TfGM	To provide an update on Vision Zero	Policy Development
Active Travel Sub Committee	Streets for All Design Guide	Jonathan Marsh, TfGM	To provide an update on the Streets for All Design Guide	Policy Development

**March 2023**

<b>MEETING</b>	<b>TOPIC</b>	<b>CONTACT OFFICER</b>	<b>PURPOSE</b>	<b>ALIGNMENT TO WHICH KEY FUNCTION OF THE COMMITTEE</b>
Full Committee	Bus Franchising Programme Update	Anne Marie Purcell, TfGM	To provide an update on the latest status of the bus franchising programme.	Implementation
	TravelSafe Update (Six monthly)	Lucy Kennon, TfGM	To provide a regular update on the work undertaken by the TravelSafe Partnership to tackle crime and anti-social behaviour on the network.	Accountability

<b>MEETING</b>	<b>TOPIC</b>	<b>CONTACT OFFICER</b>	<b>PURPOSE</b>	<b>ALIGNMENT TO WHICH KEY FUNCTION OF THE COMMITTEE</b>
	Introduction to the Active Travel Commissioner	Dame Sarah Storey, GMCA	To provide an overview on 'Refresh the Mission, a refreshed active travel mission for Greater Manchester focusing on accessibility, behaviour change and clear communications.	Policy Development
	Rail Operator Update	Chris Jackson, Northern	To provide an update on the performance of Northern services.	Accountability
	Public Transport Market Renewal	Steve Warrener, TfGM	To update Members on the public transport patronage and initiatives to encourage people to use public transport.	Implementation
	GM Rail network performance update	Simon Elliot	To update members on the overall performance and proposals for rail the network.	Policy Development
