PLEASE NOTE SHOULD YOU HAVE A PERSONAL INTEREST THAT IS PREJUDICIAL IN AN ITEM ON THE AGENDA, YOU SHOULD LEAVE THE ROOM FOR THE DURATION OF THE DISCUSSION & THE VOTING THEREON.

QUICK GUIDE TO DECLARING INTERESTS AT GMCA MEETINGS

This is a summary of the rules around declaring interests at meetings. It does not replace the Member's Code of Conduct, the full description can be found in the GMCA's constitution Part 7A.

Your personal interests must be registered on the GMCA's Annual Register within 28 days of your appointment onto a GMCA committee and any changes to these interests must notified within 28 days. Personal interests that should be on the register include:

- Bodies to which you have been appointed by the GMCA
- Your membership of bodies exercising functions of a public nature, including charities, societies, political parties or trade unions.

You are also legally bound to disclose the following information called DISCLOSABLE PERSONAL INTERESTS which includes:

- You, and your partner's business interests (eg employment, trade, profession, contracts, or any company with which you are associated)
- You and your partner's wider financial interests (eg trust funds, investments, and assets including land and property).
- Any sponsorship you receive.

FAILURE TO DISCLOSE THIS INFORMATION IS A CRIMINAL OFFENCE

STEP ONE: ESTABLISH WHETHER YOU HAVE AN INTEREST IN THE BUSINESS OF THE AGENDA

If the answer to that question is 'No' – then that is the end of the matter. If the answer is 'Yes' or Very Likely' then you must go on to consider if that personal interest can be construed as being a prejudicial interest.

STEP TWO: DETERMINING IF YOUR INTEREST PREJUDICIAL?

A personal interest becomes a prejudicial interest:

- where the well being, or financial position of you, your partner, members of your family, or people with whom you have a close association (people who are more than just an acquaintance) are likely to be affected by the business of the meeting more than it would affect most people in the area.
- the interest is one which a member of the public with knowledge of the relevant facts would reasonably regard as so significant that it is likely to prejudice your judgement of the public interest.

FOR A NON PREJUDICIAL INTEREST**YOU MUST**

- Notify the governance officer for the meeting as soon as you realise you have an interest
- Inform the meeting that you have a personal interest and the nature of the interest
- Fill in the declarations of interest form

TO NOTE:

- You may remain in the room and speak and vote on the matter
- If your interest relates to a body to which the GMCA has appointed you to you only have to inform the meeting of that interest if you speak on the matter.

FOR PREJUDICIAL INTERESTS**YOU MUST**

- Notify the governance officer for the meeting as soon as you realise you have a prejudicial interest (before or during the meeting)
- Inform the meeting that you have a prejudicial interest and the nature of the interest
- Fill in the declarations of interest form
- Leave the meeting while that item of business is discussed
- Make sure the interest is recorded on your annual register of interests form if it relates to you or your partner's business or financial affairs. If it is not on the Register update it within 28 days of the interest becoming apparent.

YOU MUST NOT:

- participate in any discussion of the business at the meeting, or if you become aware of your disclosable pecuniary interest during the meeting participate further in any discussion of the business,
- participate in any vote or further vote taken on the matter at the meeting

GMTBSC 37/20 MINUTES OF MEETING OF THE BUS SERVICES SUB COMMITTEE HELD 15 JANUARY 2021

Resolved /-

That the minutes of the meeting held 15 January 2021 be approved.

GMTBSC 38/20 UPDATE FROM OPERATORS

The Chair invited all bus operators to provide a verbal update on the key issues and developments over the past two months.

Comments included –

- Patronage had increased steadily over recent weeks and was currently c. 43-50% of pre-covid levels. During lockdown 3, passenger numbers were as low as 30% however, a further increase was anticipated after the easter period.
- Most operators were now operating c. 80-90% mileage.
- Uptake of services following the return of schools had been patchy.
- There were concerns regarding resourcing levels should those classified as clinically extremely vulnerable be required to remain at home post the end of March.
- Further timetable increases were planned by a number of operators in April as further lockdown eases were introduced.
- Performance remained good across the majority of the network and where there had been issues of congestion, duplicate services had been deployed.
- The union strike by Unite had commenced at the Go North West depot. Essential services were being maintained through sub contracted services to eleven local companies, all of which were covid secure and wheelchair accessible. A £1 standard fare was currently in place, with all concession passes still accepted. Work was underway with ACAS to find a solution to the dispute as soon as possible and ensure that there were no disruptions to passengers.

Members expressed concern as to the lack of information available at Bury Interchange regarding recent service changes, specifically in relation to new coloured buses provided by Go North West.

Resolved /-

1. That the updates from bus operators be noted by the Committee.
2. That the request for further signage regarding services at Bury Interchange be noted by

GMTBSC 39/20 RING AND RIDE PERFORMANCE UPDATE

Nick Roberts, Head of Services & Commercial Development, TfGM introduced a report which updated Members on the progress in relation to the delivery of Ring and Ride services by Greater Manchester Accessible Transport Ltd (GMATL), particularly regarding the impact of the Covid-19 pandemic. Due to the targeted client group, this service had seen a significant reduction in trips taken over the past year and had never recovered past 22% of normal levels. To support access to vaccination sites specifically, some of the conditions of use had been relaxed, expanding the radius of coverage and allowing anyone with a concessionary pass to request a journey.

As the country were coming out of lockdown, it was felt a timely opportunity for the service to be reviewed to determine what type of future demand would there be. Members felt that there was some anxiety in relation to leaving home especially within elderly and vulnerable communities which may result in a slow recovery for the Ring and Ride Service. It was suggested that potentially there were excess vehicles within the fleet which could be re-deployed. Officers informed the Committee that the procurement of additional vehicles had been on hold throughout the pandemic and would now be re-modelled as to the type and size of fleet required for the future service.

Looking at the wider picture, Members felt that the return of demand led services such as Ring and Ride should be considered within the context of public transport recovery and it would be imperative to have the right campaign messaging to encourage users back to the network at the appropriate time.

Members reported that at a recent rail conference, operators had indicated that passenger numbers would not recover back to normal levels for four years. This was concerning, however also reflected potential new working patterns and reduced overall demand. Therefore it was acknowledged that encouraging passengers back to the public transport network would be a long process and would need a joined up approach across all operators, Local Authorities and the Department for Transport.

Resolved /-

1. That the report be noted.
2. That it be noted that the procurement of additional fleet vehicles for Ring and Ride has been put on hold whilst further modelling is underway as to how the service may look in the future.
3. That a further report on the future of Ring and Ride be brought to a meeting of the GM Transport Committee in early 2021, however comments and suggestions from Members would be welcomed in advance of this.
4. That the Chair would raise the points made by Members at a meeting of the Ring and Ride Committee later today.

GMTBSC 40/20 FORTHCOMING CHANGES TO THE BUS NETWORK

James Lewis, Section Manager, Services Planning, TfGM took Members through the latest forthcoming changes to the bus network report.

Annex A

In addition to the commercial changes listed, there had been late notification of a change to the 130 service from Macclesfield to Handforth operated by D&G Buses who were extending their Monday-Friday daytime services to the Airport and Wythenshawe Hospital.

Annex B

There were no items in Annex B.

Annex C

There were proposed changes to services in the Standish area, services 640/641 operated by Stagecoach and supported by TfGM as a result of engagement with local councillors.

The Bolton Metroshuttle had been reviewed annually and due to a reduction in patronage had been requested to be withdrawn.

As a result of improvements to surrounding services, it had been requested that the Local Link service to Logistics North be removed, however this would be continually monitored.

In addition to those changes published, there were some further commercial adjustments anticipated for the Bolton area with no service reduction implications. However, local elected members would be briefed on these changes as appropriate.

Members suggested that alongside the review of the Ring and Ride service as discussed in the previous item, that a wider review of all demand-based services including Local Link and Metroshuttles be undertaken.

In relation to the changes proposed for the Rochdale area, Members thanked officers for advanced notice and the opportunity to discuss any implications. However, requested that further consideration be given to the first and last journeys of the 18 Service to ensure that the timings were in line with shift patterns at the Manchester Royal Infirmary.

On the issue of passenger confidence, Members questioned as to what actions were being undertaken by operators to address any concerns. The Committee were informed that there were ongoing conversations with the Department for Transport and other bodies regarding a concise post lockdown message to support people back to the public transport network. Future bus services funding announcements were anticipated over the next couple of week and therefore this conversation was anticipated to progress further following this and as restrictions begin to be lifted.

Many measures were already in place to ensure passenger safety when travelling on the bus network, including regular cleaning, social distancing, contactless payments etc and these would continue as lockdown was eased. It was anticipated that the Bus Strategy would now include elements in relation to covid that would offer a specific industry steer and some clarity on future funding.

Members expressed some concern as to the non-covid safe behaviour of pupils at Bury Interchange, specifically the use of face coverings and keeping a safe social distance and

urged for further interventions from TravelSafe officers.

Resolved /-

1. That the changes to the commercial network and the proposals not to replace the de-registered commercial services as set out in Annex A be noted;
2. That it be noted that in addition to the report, there had been a late notification received in relation to service 130 which was a commercial service run by D&G Buses which would now be extended Monday-Friday daytime to the Airport and Wythenshawe Hospital.
3. That it be agreed that no action is taken in respect of changes or de-registered commercial services as set out in Annex A;
4. That it be noted that there is no proposed action taken in respect of changes or de-registered commercial services as set out in Annex B; and
5. That it be noted that the Bolton Metroshuttle service had been withdrawn following annual reviews of patronage levels.
6. That TfGM would continue to review any impact of withdrawing the Local Link Service to Logistics North.
7. That it be noted that there was a further commercial adjustment anticipated in the Bolton area, which would not result in any service reduction. However, this would be consulted on with local members.
8. That the proposed changes to general subsidised services set out in Annex C be approved.
9. That a wider review of all demand responsive services be undertaken by TfGM in light of the recovery phases for the whole public transport network and reported back to the GM Transport Committee in due course.
10. That the GM Transport Committee receive a report as to the planned communications campaign to encourage people back onto the public transport network at a timely opportunity.
11. That the anticipated imminent publication of the Bus Strategy be noted and an update on future funding for the bus network be brought to a future meeting of the GM Transport Committee.
12. That Member's concerns regarding the lack of social distancing practice of school and college pupils at Bury Interchange be passed to TravelSafe officers.

GMTBSC 41/20 EXCLUSION OF THE PRESS AND PUBLIC

Resolved /-

That, under section 100 (A)(4) of the Local Government Act 1972 the press and public should be excluded from the meeting for the following items on business on the grounds

that this involved the likely disclosure of exempt information, as set out in the relevant paragraphs of Part 1, Schedule 12A of the Local Government Act 1972 and that the public interest in maintaining the exemption outweighed the public interest in disclosing the information.

GMTBSC 42/20 FORTHCOMING CHANGES TO THE BUS NETWORK

Resolved /-

That the financial implications of forthcoming changes to the bus network be noted by the Committee.

Bus Back Better: National Bus Strategy Bus Services Improvement Plan Greater Manchester's Approach

Update to the GMTC Bus Services Sub Committee : 6th August 2021

Strategic Context

- Unlike rail, road, aviation, cycling, walking etc. there has not been until now a national strategy for buses, with long term funding commitments.
- On 15th March the DfT published the new national strategy for buses in England (outside of London).
- The key element of the strategy is to get more people travelling by bus:
 - Stage 1 – Get patronage back to pre-COVID-19 levels.
 - Stage 2 – Seek to increase patronage past pre-COVID levels.
- A key output from the National Bus Strategy is a Bus Service Improvement Plan (BSIP)

BSIP in context of the NBS

Key Output – A Bus Service Improvement Plan must be produced

Reminder of Strategic Context

- BSIP is an integral part and an early deliverable of Bus Reform and Franchising.
- Considered in the context of other local initiatives such as Local Bus Strategy / Streets for All Strategy / Clean Air Plan/ Transport Pipeline Development.

Page 14

BSIP – What does it Include?

Our Overall Vision for Bus

Data Requirements – now and going forward – What is available / setting targets

Page 15

What do we need to deliver BSIP?

Partner Engagement– Local Authorities / Bus Operators / Community / Businesses / Interest Groups

Timeline for the initial BSIP

 Milestone

- **17th May** – Guidance published by DfT
 - **STEP 1 – 30th June** – advise Central Government of Enhanced Partnerships (EP) or Franchising (**Confirmation received from DfT that GM is not required to action**)
 - **October 29th GMCA approval of the BSIP**
 - **STEP 2 - 31st October** – publish and submit BSIP to Government
 - **STEP 3 – 31st March 22** – either EPS in place *or* following statutory processes to franchising - ready to receive funding and commence delivery of the BSIP
-

- Opportunity for GM to demonstrate what it has done previously in respect of bus and set and deliver **our vision** for the future from a bus perspective as to how we will serve customers.
- Opportunity to accelerate recovery from the Pandemic and build patronage contributing to right mix aims and objectives.
- Opportunity to promote bus as a mode and support / drive integration of the transport network.
- Opportunity to access funding for 22/23 and beyond (further guidance to be issued by DfT in the summer, but in the meantime a £3 bn funding allocation nationwide has been referenced)
- GM uniquely placed as the most advanced authority outside of London in progressing Bus Reform

-
- Time constraints – To achieve necessary approvals the BSIP needs to be ready by mid September)
 - Availability of Resource
 - Content of the document:
 - Need to marry up ambition with reality – given timescales and DfT guidance the document needs to be high level whilst still being able to demonstrate GM ambition and aspiration.
 - Need to be clear on what we need from others to deliver (funding / powers/ cooperation)
 - Need to keep relatively short (30-40 pages ideally)
 - Availability of data to meet requirements/expectations
 - Partner Engagement – timing and level of engagement (Operators/L/A's and Community and User Groups) – Letters of support required from bus operators
 - Emerging guidance from DfT about how this document will be used (to what extent it informs future funding)
 - Significant interfaces with lots of other GM / TfGM ongoing initiatives: Bus Reform; Clean Air Plan; Transport Pipeline Development/ Streets for All Strategy / Local Bus Strategy
-

Where are we now?

- Team now mobilised to develop BSIP
- Initial partner engagement is underway – operators and L/A's
- 'Strawperson' document developed so we can facilitate commencement of drafting work
- Gap analysis being undertaken to identify where we need any further technical input. This is particularly key in the area of data requirements

Page 20

Next Steps?

- Continue Partner Engagement – particular focus on operators
 - Continue developing the BSIP.

1. INTRODUCTION/BACKGROUND

- 1.1. The Bus Services Sub Committee of the Greater Manchester Transport Committee considers all matters relating to the operation and service performance of the bus network in Greater Manchester, including commercially registered and subsidised services; Demand Responsive Services, bus stations and bus stops; passenger information services; contract monitoring; vehicle standards; and passenger safety for the subsidised bus network.
- 1.2. Acting under delegated authority, the Sub Committee is tasked to review closely and approve all proposed changes to the subsidised bus network and ensure that the cost of the subsidised general services is kept within the appropriate budget or any cash limits. This is achieved through:-
 - rationalisation of existing services whilst maintaining key links on the network;
 - engaging with operators with the objective of them taking on “marginal commercial” services; and
 - continuing to redesign and restructure grouped services to ensure that maximum value is obtained from subsidy.
- 1.3. In general, withdrawals, reductions or amendments to services are currently only planned at the date of next renewal of the contract concerned and proposed changes will be reported to this Sub Committee.
- 1.4. The governance process that leads up to the reporting to the Bus Services Sub Committee involves the scrutiny of all tendered services at TfGM's Tender Panel that consists of representatives from Legal, Procurement and Finance as well as TfGM's Bus Services team.

2. 2021/22 BUDGET SUMMARY

- 2.1 The summary below provides the current position on the 2021/22 Subsidised Bus Services budget for the three months to 30th June 2021.
- 2.2 Net expenditure on Subsidised Services is £0.3m lower than budget in the year to date. It should be noted that considerable risk remains around future income (including continued government support) and cost.

3 CHANGES TO COMMERCIAL SERVICES (ANNEX A)

- 3.1 Annex A to this report lists changes to commercial services which, in the view of Transport for Greater Manchester, are not sufficiently significant to require the provision of subsidised service replacements. Brief details of the implications of the changes are provided.

4 CHANGES TO THE COMMERCIAL NETWORK (ANNEX B)

- 4.1 Annex B to this report lists changes to commercial services and provides brief details of the implications of these changes, which officers believe are of sufficient importance to require action by Transport for Greater Manchester

.

5 CHANGES TO GENERAL SUBSIDISED SERVICES (ANNEX C)

- 5.1 Annex C to this report lists proposals for changes to general subsidised services on which the views of Members are requested. Information is given about the reasons for proposing these changes.

6 FINANCIAL IMPLICATIONS

- 6.1 Financial implications are set out in Part B of the report.

7 RECOMMENDATIONS

- 7.1 Recommendations are set out at the front of this report.

CHANGES TO THE SUBSIDISED NETWORK

ANNEX C

The Committee is invited to consider officers' proposals on the following services:

Dist	Service, route and operator	TfGM officer comments and recommendations
SD	66 Eccles – Worsley – Swinton – Pendlebury - Prestwich <i>Operated by Diamond</i>	<p>Subsidised service 66 currently operates hourly Monday to Saturday daytime and every two hours in the evening and on Sunday daytime.</p> <p>The operator has reported that they are experiencing punctuality issues with this and other Salford area timetables. A full review, of this and other services, has taken place and the extension to Prestwich Tesco (introduced in October 2020, when service 66 replaced service 484) has been highlighted as one of the causes of poor punctuality given the variable traffic congestion in Prestwich and the number of traffic lights on this section of route.</p> <p>Officers propose that the service once again terminates at Prestwich, Longfield Centre. This action will reduce mileage, allowing additional running time and layover to be introduced across the network and improve punctuality.</p> <p>Members are asked to approve the changes to this service with effect from 29th August 2021.</p> <p>There is no change to the Tendered Service Budget.</p>
SD	79 Pendleton – Salford Quays – Stretford <i>Operated by Diamond</i>	<p>Subsidised service 79 currently operates hourly Monday to Saturday daytime and every two hours in the evening and on Sunday daytime.</p> <p>As noted above, the operator has reported that they are experiencing punctuality issues across their Salford area subsidised timetables.</p>

		<p>The peak service 79 has been particularly affected and officers propose the introduction of significant additional running time at peak times. Consequently, on weekdays the number of journeys in the evening peak will be reduced with one round trip removed allowing additional time to be distributed across the remaining journeys.</p> <p>In the afternoon peak buses will depart Pendleton at:</p> <p>1520, 1636, 1803, 1925 & 2125 (previously 1525, 1625, 1733, 1837, 1925, 2125)</p> <p>And Stretford at:</p> <p>1455, 1601, 1720, 1845, 1959, 2159 (previously 1501, 1605, 1706, 1813, 1913, 2001, 2201)</p> <p>Members are asked to approve the changes to this service with effect from 29th August 2021. There is no change to the Tendered Service Budget.</p>
OM	184 Oldham – Grotton - Huddersfield <i>Operated by First</i>	<p>This daily service currently operates hourly Monday to Saturday daytime between Oldham and Huddersfield.</p> <p>The subsidised evening and Sundays/Bank Holidays service operates hourly between Oldham and Grotton. A review of these journeys has been undertaken given the low patronage and the high cost per passenger with officers working with the operator on options to improve the service and its cross-boundary link.</p>

		<p>Officers are recommending the withdrawal of the Monday to Saturday 2127 from Grotton and its return journey, however the Monday to Saturday 2115 (currently 2105) from Oldham and its return journey would be extended to Marsden/Huddersfield. In addition, the hourly Sunday/BH service would be extended to Huddersfield every two hours instead of the commercial 84 service. The route extension beyond Grotton would be commercial.</p> <p>Members are asked to approve the changes to this service with effect from 29th August 2021.</p> <p>There is no change to the Tendered Service Budget.</p>
TD	<p>287 Altrincham – Bowdon - Bowdon Vale circular</p> <p><i>Operated by Little Gem (Goodwins)</i></p>	<p>Service 287 operates daily every hour. Health and safety concerns have been raised regarding buses regularly mounting the pavement in order to operate via Church Brow, despite the introduction of parking restrictions.</p> <p>Officers have explored options and are proposing to revise the route from Altrincham Interchange via Stamford New Road, Railway Street, Ashley Road, Langham Road, Bow Green Road as normal route via Bowdon Vale to Langham Road, then via Richmond Road, Stamford Road and reverse of existing route via The Firs, Cavendish Road, Delamer Road, The Downs, Railway Street, Stamford New Road to Altrincham Interchange. Church Brow and Talbot Road will no longer be served. Distance to the service less than 150 metres.</p> <p>Members are asked to approve the changes to this service with effect from 29th August 2021.</p>

		There is no change to the Tendered Service Budget.
TE	335 Ashton – Dukinfield – Denton - Dane Bank <i>Operated by Little Gem (Goodwins)</i>	<p>Service 335 currently operates Monday to Saturday hourly and every two hours evening and Sunday on short journeys to/from Denton, Ruskin Avenue. Representations were received from a local MP for the Monday to Saturday daytime route to be extended to better penetrate the Dane Bank area. In response officers liaised with the operator of the service and agreed the change.</p> <p>Towards Ashton the service operates via Windmill Lane, Thornley Lane South and will then continue and turn right on to Wilton Street, Granada Road, Windsor Road, Hulme Road then as normal route. The service will operate hail and ride along the new sections of route.</p> <p>Anson Road would no longer be served. The distance to the service for those affected is less than 280 metres.</p> <p>Members are asked to approve the changes to this service with effect from 29th August 2021.</p> <p>The financial implications are included under Part B.</p>
TE	336 and 337 Ashton – Smallshaw – Hazelhurst circular <i>Operated by Stagecoach</i>	<p>Circular services 336 and 337 both operate daily every hour. The operator has reported that they are experiencing reliability problems. In order to improve reliability, the services will be re-timed.</p> <p>Members are asked to approve the changes to these service with effect from 5th September 2021</p>

		There is no change to the Tendered Service Budget.
OM TE	<p>356</p> <p>Ashton – Mossley – Uppermill – Denshaw – Oldham</p> <p><i>Operated by Nexus Move</i></p>	<p>Service 356 operates every hour during Monday to Saturday daytime, reducing to every two hours in the evening and on Sunday daytime.</p> <p>Officers have retimed the Monday to Saturday service, to better serve Bluecoat School on school days and to offer better connections with the evening train service at Greenfield.</p> <p>Buses from Greenfield are retimed earlier to meet trains arriving from Manchester at xx:53 (16:53 to 20:53, and 22:56 on Fridays/Saturdays only). Buses will leave the rail station on the hour. Consequently, evening buses from Denshaw will also be retimed to depart at xx:30 from 18:30 to 20:30, and 22:30 on Fridays/Saturdays only when the late evening through bus will be retimed to depart at 22:05 from Oldham.</p> <p>Members are asked to note these changes which were introduced on 25th July 2021.</p> <p>There is no change to the Tendered Service Budget.</p>
TE	<p>389</p> <p>Ashton – Stalybridge – Dukinfield – Yew Tree circular</p> <p><i>Operated by Stagecoach</i></p>	<p>Circular service 389 operates daily every hour. The operator has reported that they are experiencing reliability problems. In order to improve reliability, the services will be re-timed.</p> <p>Members are asked to approve the changes to these service with effect from 5th September 2021.</p> <p>There is no change to the Tendered Service Budget</p>
RE OM	435	Subsidised service 435 currently operates hourly Monday to Saturday daytime.

	<p>Rochdale – Turf Hill - Shaw</p> <p><i>Operated by TransDev</i></p>	<p>Following representations from local Councillors, the service will be re-routed in Shaw to serve Hannerton Road.</p> <p>The Monday to Friday 0741 journey from Milnrow to Rochdale which is currently provided for students to travel to Crompton House School is withdrawn as an alternative journey on the revised timetable of service 408. The resource released from this change will allow introduction of additional peak time journeys on R1 and R3/R13.</p> <p>Members are asked to approve the changes to this service with effect from 29th August 2021.</p> <p>There is no change to the Tendered Service Budget.</p>
RE OM	<p>458</p> <p>Rochdale – Smithy Bridge – Littleborough - Stansfield</p> <p><i>Operated by TransDev</i></p>	<p>Subsidised service 458 currently operates hourly daily daytime between Rochdale and Littleborough, extending evening and Sunday to Stansfield.</p> <p>Following changes to service 457 which has been extended to Stansfield commercially to replace service 588 across the daytime, one pair of journeys are no longer required to extend the Stansfield.</p> <p>The 1750 (MF) and 1745 (Sat) journeys will revert to terminating at Littleborough.</p> <p>There will be additional MF from Shore and Stansfield on this service at 0638 and 0658.</p> <p>Members are asked to approve the changes to this service with effect from 29th August 2021.</p>

		There is no change to the Tendered Service Budget.
BY BN	480 Bury – Walshaw – Tottington – Hawkshaw – Bradshaw – Bolton <i>Operated by TransDev</i>	<p>Service 480 currently operates hourly Monday to Saturday daytime between Bury and Tottington on a commercial basis and extended to Bolton under tender off peak and Saturday.</p> <p>Additional journeys are introduced on schooldays at 0711 Bolton to Bury and 0720/0820 Bury to Bolton.</p> <p>Members are asked to approve the changes to this service with effect from 29th August 2021.</p> <p>The financial implications are included under Part B.</p>
BN	501 Johnson Fold — Bolton — Royal Bolton Hospital — Farnworth <i>Operated by Arriva, Diamond and Vision Bus</i>	<p>This service currently operates every 15 minutes Monday to Saturday daytime, and every 30 minutes on Sundays. The hourly subsidised evening service was run by Arriva.</p> <p>Subsequent to the tender award process for contracts commencing April 2021, through which the subsidised journeys would have been operated by Vision Bus, a commercial registration submitted by Diamond Bus has resulted in some of the former subsidised journeys being operated commercially by Diamond; the remainder are now operated by Vision as part of a TfGM contract. In addition, an earlier journey on Sunday morning is also operated by Vision as part of a TfGM contract to extend the span of operation.</p>

Greater Manchester Transport Committee –

Work Programme

July 2021 to September 2021

The table below suggests the Committee’s work programme from July 2021 to September 2021.

Members are invited to further develop, review and agree topics which they would like to consider. The work programme will be reviewed and updated regularly to ensure that the Committee’s work remains current.

The key functions of the Committee are –

- **Accountability:** active and regular monitoring of the performance of the transport network, including the Key Route Network, the operation of the GM Road Activities Permit Scheme, road safety activities, etc as well as all public transport modes. This role will include holding service operators, TfGM, highway authorities and transport infrastructure providers to public account, and to recommend appropriate action as appropriate;
- **Implementation:** oversee the delivery of agreed Local Transport Plan commitments. This includes the active oversight of the transport capital programme, and decisions over supported bus services network to be made within the context of policy and budgets set by the Mayor and the GMCA as appropriate; and
- **Policy Development:** undertake policy development on specific issues, as may be directed by the Mayor and / or the GMCA
