--

Total funding of £703,660 via the MOJ Victims Budget for 2024/25.

Total funding to be approved - **£703,660**.

The reasons for the decision are:

A full strategic needs assessment for victims of crime will be undertaken in financial year 2024/25. Not only will this inform the next stage of our commissioning cycle but will also assist in identifying our priorities as the Government's multi-year commitment to victims funding is ending in March 2025. Extending support services will maintain stability across the sector and continue to provide essential support to victims in GM.

An Expression of Interest exercise will also be undertaken to appoint a provider to review the Tier 2 services for victims of crime. This proposed extension of existing services will allow adequate time to undertake the review and communicate this to services and partners.

This decision will contribute to priorities of the Greater Manchester strategy in the following ways:

Delivering services to Victims of Crime falls under the following priorities in the delivery plan for the Police, Crime and Fire team:

- Priority 2 – a better service for victims of crime measured against the victims' survey.
- Priority 6 – tackle gender-based violence and abuse in all its forms.

It also contributes towards the Standing Together Plan – priority 1 keeping people safe and supporting victims.

Procurement comments:

Continued grant funding while review is undertaken is considered reasonable in the circumstances and is low risk. Should any proposal arise to extend the scope of the values or timescales detailed in this document, please revert to Commercial Services for additional advice and support.

Beyond this, the effects of relevant Subsidy Control legislation should be considered.

Financial comments:

The funding will be provided via the annual MOJ victims' budget (cost code 3011). GMCA have a 3-year funding agreement from the Ministry of Justice with funding allocated until 31st March 2025.

Legal comments:

Funding will be provided via a grant addendum for the full financial year and a grant agreement will be issued to all organisations. Within the grant conditions, service providers will be required to complete regular grant monitoring returns.

Risk Assessment:

A further 12-month extension will allow consistency of service provision and alignment of funding streams, whilst the GM Victim Service is recommissioned and mobilised.

Is safeguarding of children relevant and has this been considered:

Safeguarding of children will continue to be a key aspect of service delivery for services we grant fund and will be dealt with using the agreed protocols

Is safeguarding of vulnerable adults relevant and has this been considered:

Adult safeguarding will continue to be a key aspect of service delivery for services we grant fund and will be dealt with using the agreed protocols.
