

GREATER MANCHESTER TRANSPORT COMMITTEE

Date: 13 March 2020.

Subject: Forthcoming Changes to the Bus Network - Part A

Report of: Alison Chew, Interim Head of Bus Services, TfGM

PURPOSE OF REPORT

- i. To inform Members of the changes that have taken place to the bus network since the last Greater Manchester Transport Committee meeting, in addition to report on consequential action taken or proposed by Transport for Greater Manchester; and
- ii. To seek guidance from Members on proposed Transport for Greater Manchester action.

RECOMMENDATIONS:

Members are asked to:

1. note and comment as appropriate on the changes to the commercial network and the proposals not to replace the de-registered commercial services as set out in Annex A;
2. agree that no action is taken in respect of changes or de-registered commercial services as set out in Annex A;
3. agree that no action is taken in respect of changes or de-registered commercial services as set out in Annex B; and
4. approve the proposed changes to general subsidised services set out in Annex C.

1. INTRODUCTION/BACKGROUND

- 1.1 The Transport Committee considers all matters relating to the operation and service performance of the bus network in Greater Manchester, including commercially registered and subsidised services; Demand Responsive Services, bus stations and bus stops; passenger information services; contract monitoring; vehicle standards; and passenger safety for the subsidised bus network.
- 1.2 Acting under delegated authority, the Transport Committee is tasked to review closely and approve all proposed changes to the subsidised bus network and ensure that the cost of the subsidised general services is kept within the appropriate budget or any cash limits. This is achieved through:-
- rationalisation of existing services whilst maintaining key links on the network;
 - engaging with operators with the objective of them taking on “marginal commercial” services; and
 - continuing to redesign and restructure grouped services to ensure that maximum value is obtained from subsidy.
- 1.3 In general, withdrawals, reductions or amendments to services are currently only planned at the date of next renewal of the contract concerned and proposed changes will be reported to this Committee.
- 1.4 The governance process that leads up to the reporting to the Transport Committee involves the scrutiny of all tendered services at TfGM’s Tender Panel that consists of representatives from Legal, Procurement and Finance as well as TfGM’s Operational Service Planning and Network Performance departments.

3. CHANGES TO COMMERCIAL SERVICES (ANNEX A)

3.1 Annex A to this report lists changes to commercial services which, in the view of Transport for Greater Manchester, are not sufficiently significant to require the provision of subsidised service replacements. Brief details of the implications of the changes are provided.

4. CHANGES TO THE COMMERCIAL NETWORK (ANNEX B)

4.1 Annex B to this report lists changes to commercial services and provides brief details of the implications of these changes, which officers believe are of sufficient importance to require

action by Transport for Greater Manchester. Details of the proposed actions are also provided.

5. CHANGES TO GENERAL SUBSIDISED SERVICES (ANNEX C)

5.1 Annex C to this report lists proposals for changes to general subsidised services on which the views of Members are requested. Information is given about the reasons for proposing these changes.

6. FINANCIAL IMPLICATIONS

6.1 Annex A, presents no financial implications.

6.2 Annex B, financial implications are noted in Part B of the agenda.

6.3 Annex C, financial implications are noted in Part B of the agenda.

7. RECOMMENDATIONS

7.1 Recommendations are set out at the front of this report.

OM	<p>403</p> <p>Oldham – Royal Oldham Hospital – Shaw</p>	<p>At the GMTTC meeting of 17th January, the recommendation to revise service 403 to operate from Oldham (incorporating part of the withdrawn 418 route) to Shaw and Buckstones, omitting Rushcroft and High Crompton was approved. However, a meeting took place on 11th February, at which councillors expressed concerns about the loss of service in these areas and requested that it instead omitted Buckstones and continued to serve Rushcroft and High Crompton. Therefore, the revised 403 is planned to operate from Oldham via Dr Kershaw’s Hospice, Shaw Centre then a full anti-clockwise loop of the existing 403 route through Rushcroft and High Crompton. As this would leave Scarr Lane and Linney Lane unserved, it is proposed to reroute service 435 to operate a one way loop round Buckstones so that this area can continue to have a service.</p> <p>Officers are recommending rerouting the 403 and 435 as described to take effect Monday 20th April. There are no financial implications.</p>
BY	<p>Ramsbottom and Tottington Local Link</p>	<p>The Ramsbottom and Tottington Local Link service operates Monday to Friday between 0645 and 1830. The service covers Bury Interchange, Ramsbottom, Tottington, Greenmount and Ainsworth. 46% of trips are made for shopping purposes and 25% for employment.</p> <p>Despite engagement with the local community group (Rural Inequalities Forum), including promotion of the service, patronage has declined resulting in a high cost per passenger rising from £15.74 in January 2019 to £21.16 in January 2020. The average for the year was £20.16. The service is no longer sustainable.</p> <p>The feasibility of alternative provision has been investigated as officers tendered for an off peak bus service. However, the bids received were extremely expensive, representing in excess of £18 per passenger trip.</p> <p>Officers are recommending the withdrawal of Ramsbottom and Tottington Local Link after operation on 17 April 2020. Financial Implications are detailed in Part B.</p>
